

When **hiring** new employees or consultants, a **Company** is confronted with handling a bunch of legal **documents** per candidate. Here is a list of the most common ones, depending on the job position & company:

- Identity Card
- Agreements
- Driving Licence
- Diplomas
- Student@Work Attestations
- Any types of Forms
- Criminal Records
- Bank Cards
- Working Permit
- Training Certificates
- Limosa
- Good Conduct Certificates

CheckHub.io **enhances** your **recruitment process** with automated **handling** of necessary **documents** when hiring a candidate.

Our solution helps companies to **decrease** their **administrative internal labor**.

CheckHub.io's features include:

Collecting and **centralizing** documents with automated recalls to candidates per texts, mails and calls.

Checking all provided documents thanks to Optical Character Recognition (OCR) & Document Layout Analysis.

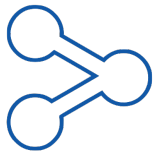

Asking candidates to **read and accept** documents such as agreements or policies.

Giving **reports** through clear **dashboards** & allowing document specific exports.

Allowing candidates to **upload** documents with **any mobile devices**.

Securing and encrypting provided data for all users.

Full **integration** with **API's**.

The screenshot shows the CheckHub.io dashboard. At the top, there are navigation links for Candidates, Documents, My Profile, and Logout. Below this, there are three summary cards: TO DO (651), PENDING (9), and DONE (356). The main section is titled 'CANDIDATES' and contains a table of candidate profiles. The table has columns for First Name, Last Name, NN, Requested Docs, Uploaded Docs, Created, Last connection, and Status. The status column uses colored circles to indicate the candidate's status: red for 'TO DO', orange for 'PENDING', and green for 'DONE'. There is a search bar and a 'Switch Profile' dropdown at the top of the table. At the bottom right, there is a pagination control showing 'Previous', '1', '2', '3', '4', '5', '102', and 'Next', along with an 'Export selection' button.
