Stax solves cloud problems

Reduce waste, increase efficiency and save money with Stax.

Stax delivers complete AWS monitoring, visibility and insights across your full AWS stack, with reports the whole business will understand.

Manage costs with confidence

Track spend across your organisation and report by team, project, AWS account, service or resource tag to gain full transparency on cost attribution.
It's free, forever.

Reduce waste

Our all-in-one tool can help you reduce wasted spend on your AWS account by up to 35% by highlighting inefficiencies so you can act and stop the leaks.

PCI and CIS compliance

Keep track of issues as they evolve and tackle risks before they get too costly. Stax lets you create custom rule sets, or leverage our existing PCI and CIS rule sets, for your entire organisation, or specific teams.

Improve cloud quality

With Stax you can see which resources aren't being tagged properly and learn how to clean up your AWS, so you know who owns what and why.

Made with ☕ & ❤ in Australia

We love Melbourne as much as we love our customers. We act local, but we think and deliver big. So you get the best of both worlds.

Save up to 35% of your AWS bill with Stax wastage report

Reduce your AWS wastage. Save money.

Start saving money from day one with Stax wastage report. Get the visibility you need to optimise your AWS spend. With Stax, you'll see in one place which instances need upgrades to newer generations, how many old snapshots you're hanging on to, unattached EBS volumes and more.

Stax plans

Basic
Cost management free forever

For small companies, or people looking for cost, compliance and security visibility.

Premium ✦
2% of AWS monthly spend

For small and medium companies that want to take full control of their AWS environment.

Enterprise ⚡
Tailored pricing to meet your needs

For companies managing complex AWS environments. Get in touch at hello@stax.io.

Why our customers ♥ Stax

> "*We met with the Stax team and realised that Dave and his team had very similar values and drive to what we have at Carsales. Despite Stax being a relatively new product, **its technology was superior to any that we had seen in the market.** Stax ticked all the boxes for us.*"

Michael Ridgway
Senior Development Manager, **Carsales**

> "*Stax has saved me countless hours in tracking and accounting – doing Cost vs Opex reports, making things in Excel which is time-consuming and leaves margin for error. **Before Stax, cost allocation was a nightmare, now I know what to expect before I get the bill.**"

Shahar Cizer Kobrinksy
VP Architecture and Scale, **Eyeview**
