

SHEEPOLL'S

OPINION TRIVIA

Winning is a matter of opinion

INFO FOR CORPORATE AND FUNDRAISING SHOWS

Sheepoll. *Verb.*

The act of polling to determine the black sheep and white sheep of a given audience.

WHAT IS SHEEPOLL'S OPINION TRIVIA?

Sheepoll's Opinion Trivia is sort of like traditional trivia... but it's not shit.

No teams, pens, paper, or brains needed.

Basically, instead of asking:

“Who hosted Hey Hey, It's Saturday?”

We ask:

“Would you rather wake up next to Daryl Somers, Rove McManus or Karl Stefanovic?”

That way, instead of learning how dumb you are, you learn just how average or unique you really are, all while having a hilarious time discussing our polls with your mates and/or colleagues.

Through a whole slew of segments, and a bunch of instant prize games sprinkled throughout, we find out who is the most average person - The White Sheep, and who is the most unique - The Black Sheep. Those two players win the night, taking home some badass (temporary) sheep tattoos to show off their freshly unveiled identities, and whatever prizes you organise.

You'll find out a heap about your crew in the funnest way possible. Plus, the questions can be tailored to your needs and even personalised. What have ewe got to lose?

HOW IT WORKS FOR PLAYERS...

Your crew turns up to your venue of choice. They download the Sheepoll app (if they haven't already), create a Baabaatar - their online sheep avatar - and sign into the unique game made for you. The host puts on a show and uses the app to ask polls, run games, display results and award prizes. People laugh, drink, mingle and have a good time. No one feels dumb 'cause there are no right or wrong answers!

WHAT IT LOOKS LIKE FOR EWE...

If you like, you can DIY Opinion Trivia at the office and host it yourself, get a Sheepoll host to run the show wherever you'd like (bar, office, home), or go all out and hire a MC and DJ duo to really put on a show.

Sheepoll's Opinion Trivia turns any team-building into a lively gameshow experience. With iconic segments, interactive games and tongue-in-cheek cartoon jingles you'll be entertained the whole night through. Plus, the tech behind it is slick and clever, delivering a fun and unique experience that is ground-breaking, yet familiar.

Unlike traditional trivia, the gameplay is not dominated by the know-it-alls in the group – everyone gets to contribute! This individualistic empowerment allows colleagues to bond over common answers and points-of-view, creating a fun and social setting where people interact more and get to know each other better.

It's an immersive, interactive experience where the laughs come from host and audience alike. The questions and polls are written to spark comical exploration and debate, so the comedy is both planned and spontaneous and flows effortlessly throughout the show.

Add to this some pumpin' tunes and a few sweet prizes and you have one helluva way to reward and entertain your crew.

CLEVER STUFF - THE SHEEPPOLL APP

The Sheepoll app was designed to make polling social and fun. Rather than just build tech that made polling truly paperless, we wanted to engage the audience with some cool features to further enhance the whole Sheepoll experience.

- 🐑 When first logging in, players create a Baabaatar (their online sheep avatar representation of themselves) that changes its appearance over time according to how the player answers our polls.
- 🐑 The app engages and reveals gameplay differently for player, host and the central large screen(s). With instant interaction, participation of large groups is made easy while the focus becomes the content of discussion.
- 🐑 You can have in-app advertising or “Easter Egg” messages pop-up on everyone’s phone during the show. Start getting creative!
- 🐑 Not only are the Black and White Sheep of the crowd automatically calculated from the polls, at the end of the night, every player is revealed their Poll Mate and Pollar Opposite of the room. How cool is that?!
- 🐑 Post-show, we’ll send you a report summarising the results of the polls. You can use this info however you like. It becomes even more valuable if you customise questions to get specific feedback from your employees. Want to know which item on the lunch menu people hate the most? Let’s turn it into a poll! Are you curious which employee people would most want to be stuck on a desert island with? We can poll that too! This is all part of our Customised Polling Options.

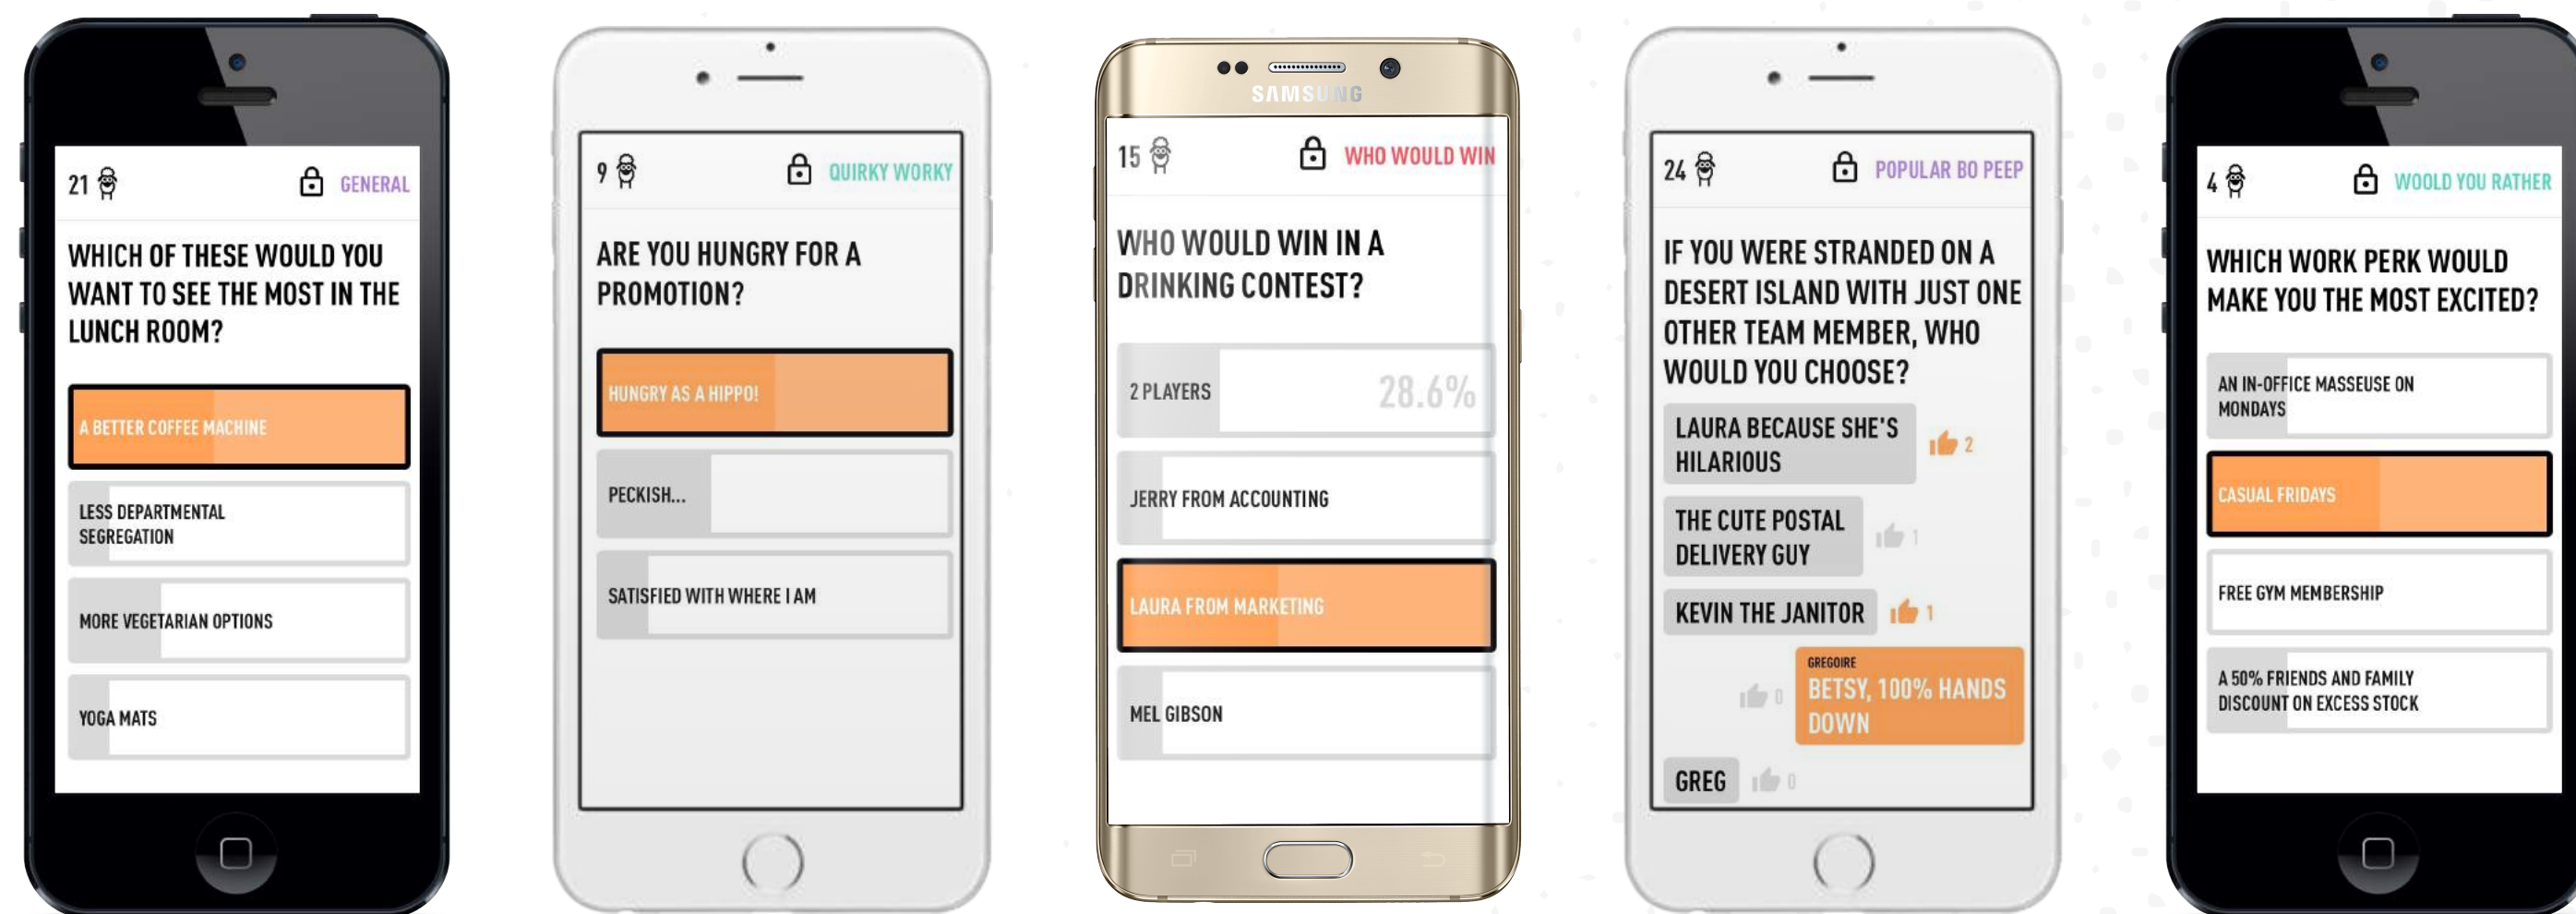

CUSTOMISED POLLING OPTIONS

There are as many different ways to customise the polls with Sheepoll as there are reasons to do so. You may want to add some personalised fun into the show by inserting work-colleague names. You may want direct feedback about a work-related issue. You may have a larger agenda that you want to disguise in several polls through the night. The data you collect could help make some important decisions.

Regardless of what you want to out of the session, it's easy for us to customise the show to suit. That level of customisation is up to you.

You get up to 10 polls per show that you can customise for free. This is done by altering content of our regular segments like Daily Dilamba, Moral Quarrel, Select A Superpower or Woould You Rather, to name a few. We'll help you decide what content would work best where.

For a little extra coin, we can get more creative. Want a featured segment themed around your company with its own jingle or animated intro? Or perhaps you want the entire show themed around a central focus or brand. If you have some creative ways on how you want to use Sheepoll, let us know and we'll draw up a quote for you!
