

Station Agreement (barter agreement)

(call letters or website for online stations) (city of license)

There is no longer a sign up fee. _____ of _____ (herein referred to as *station*) agrees to run one minute of barter ads per hour in the shows. ***Ads are in the ADS folder for each show. You can fetch them with the shows each day, as we change the ads from time to time as the client changes ads.***

We encourage you to get an optional page of “localization” liners for just \$50. You can order more pages as often as you’d like. (also just \$50 per page) You can even choose to have these breaks mention local clients to help them get some extra exposure and to help you actually MAKE money on the local breaks. (sold as “live read messages” in the show)

Station gets access to our cloud for daily files for each program chosen. **We'll send out download instructions with your username & password to get these files.** We encourage you to set up an “automatic download program” like *Radio Spider* to completely automate the process for you. (There is also a free version)

This is a 12 month agreement starting on _____ and running for 12 months. The agreement will auto-renew for another 12 months term unless either party notifies the other party within 30 days of the end of the agreement.
