MED SPA

With Age Comes Wisdom...
among other things we don't always want...

With regular maintenance (Prevention or Repair depending on your stage), we can help your skin age gracefully - keeping your collagen naturally produced so you won't need fillers; keeping your skin's elasticity so you don't settle into fine lines and wrinkles. Our Mission: #PerkyNotPlastic, make them wonder.

PREVENTION & MAINTENANCE

Your skin replaces itself every 28 days, and sometimes the old skin likes to hang out and make us look older than we are. Monthly facials will slough off the dead skin and promote healthy, hydrated new skin. This membership includes one facial with light therapy each month in order to prevent the appearance of fine lines and wrinkles.

\$900

REPAIR & MAINTENANCE

If the signs of the times have already begun, add a Dermaplane or Microdermabrasion to your monthly facial, and we'll throw in a Hyaluronic Acid treatment and eyebrow wax as a bonus!

\$1,380

REVITALIZE & MAINTENANCE

With the Revitalize VIP Program, in addition to your monthly facial, we'll add a chemical peel to help maintain texture. Our estheticians will assess your skin to determine if you need a Glycolic, Lactic Acid or Botanical Enzyme peel using peptides as a source of energy to stimulate your collagen and elastin production. A micro-current skin perfecter will be used in this VIP program as well.

\$1,860

AYURVEDIC MAINTENANCE

This program was developed for more sensitive skin. Each month, you will receive a relaxing Meridian Facial to align your chakras and eliminate environmental toxins. This program also includes reflexology on your feet and hands with essential oils. This VIP program is 2 hours of complete pampering each month.
