## *Custom orders are our specialty*

Thank you for your interest in our fine furniture. Our website and this booklet represents just a small fraction of what we can do. Hardly any book would be able to contain the nearly unlimited selections we offer. If you can imagine it, chances are we can do it for you.

At Amish Excellence, you will find EXCEPTIONAL VALUE IN FURNITURE. Yours will be exquisite furniture, reasonably priced and handcrafted by the Amish—representing generations of deeply-held belief in integrity of workmanship. The Amish tradition and concern for lasting beauty and usefulness thus confirms your discriminating taste for years to come.

While we have many items in our showrooms ready for delivery to your home, please know that “made to order” is our joy. Our principle goal is to make exactly what you want. We are about YOUR CHOICES. Specific requests are welcomed and encouraged. We love working with you in choosing the right design, the right wood, the right size, the right stain and finish. In addition, our professional designers will guide and advise you in every detail such as table edging and skirting styles or hardware selection for a bedroom chest, night stand, buffet, hutch, end table...whatever furniture item you can imagine.

Take your time, there’s no “high pressure” here. We want you to make the choices that suit you best and are here to help you consider all of the options. You need not rush a decision which will be cherished for generations into the future. You deserve to have it your way!
