

# The 9400PKS soldering gun at a glance...

**6-second heat up**  
Tip is ready to solder almost immediately. No waiting!

**The Weller 7-year warranty**  
Just another reason to trust our brand!

**Hex wrench stored in handle**  
The hex wrench is used to quickly change out tips and easily snaps in and out of the grip.

**Ball guard**  
The pivot of the ball prevents twisting and prolongs life of the cord.

**3 built-in LEDs**  
 > Provide bright spotlight on your soldering joint  
 > Eliminate tip shadow

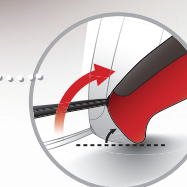

**Dual power trigger**  
**140 W / 100 W**  
Two trigger positions control power at high to medium heat (up to 900 °F)

**Perfect fit – pistol grip feels just right**

- Soft, non-slip grip surface
- Balanced housing
- Safe, ergonomic design

**Rock and roll grip foot**  
Place the gun's rounded grip foot on the workbench to support the gun while you solder.
