

WHISKEY ROW

GILBERT, AZ

Dirk Bentley's Whiskey Row is newest entertainment destination in Gilbert's Heritage District. Focused on family entertainment, concerts, and both daytime and nighttime food, the building was to be designed to endure numerous functions throughout the day. With exposed steel trusses, wood ceilings, a grand outdoor/indoor area and patio, the entire building can transform from dining to wide open concert venue within minutes. The location of the bar was centrally placed to drive the utilization of the service and maximize the dining area. This project has been a tremendous success and continue to press the limits of hospitality designs.
