

WARD 6 FALL 2023 NEWSLETTER

Entrepreneurship in Kawartha Lakes

I attended the Courageous Leadership event in June with Canadian writer and speaker, Erica Ehm, to engage local women in entrepreneurial endeavours. Launch Kawartha, located on the 3rd floor of Scotiabank in Lindsay, is a dynamic centre for innovation entrepreneurs in the City.

Hands On Leadership

Last February I was on a Public Works snow plow ride along with one of our Emily Depot public works drivers, Michael Williamson. This gave me a better appreciation of the skills and technology that our staff use especially on this equipment.

Support for City Growth

I worked closely with Ward 1 Councillor Yeo, featured above, to facilitate funding for the Coboconk Wellness Centre, scheduled to open in 2024, which will serve the northern part of Kawartha Lakes and use the old railway station for offices and a waiting room and build a new clinic next door. Working together with you and City Council builds a strong community.

Oh Canada!

I am proud to represent the residents of Ward 6 in a free and open democracy. I will always put your needs first.

Kawartha Lakes Paramedics

I was honoured to participate in an EMS ride along in June. I learned so much on this 12 hour shift and gained an immense appreciation of our first responders. Thanks to Paramedics Mike and Karen for sharing their knowledge and experience with me.

Ward 6 Infrastructure Improvements

2023 saw another record year of road improvements and capital projects for Ward 6. The next year I will continue advocating for you with more investments.

SUPPORTING OUR VETERANS

It was an honour to see veteran John Sadler again at this year's Remembrance Day Eve banquet at the Omemee Legion 497.

It is vital that we support those who fought and who continue to fight for our freedom.

OMEMEE DOWNTOWN REVITALIZATION

2023 saw the village continue its transformation into a modern streetscape.

This is a \$4Million investment by Kawartha Lakes and the Ontario government. We are now 95% complete with a final pavement in spring 2024
