## Expertise You Can Trust

As we grow more dependent on I.T., it's becoming increasingly important that your network and systems are online and operating efficiently at all times.

With proactive remote monitoring and management, we're able to keep tabs on your I.T. infrastructure 24/7, 365 days a year. If a problem does arise, our technical experts can quickly resolve it, in many cases before you're even aware that there was a problem at all.

- Predictable monthly I.T. costs
- Expertise to help you stay ahead of changing technology
- Protect your business network, data and documents
- Prevent downtime caused by network issues
- You and your employees can focus on what you do best
- Tailored to meet your exact needs

### Why Les Olson Company?

### Our Customers Love Us!

We've been in business for 60 years. Our commitment to our customers has always been based on total satisfaction. What are our customers saying about us?

"Casey is awesome! Once Casey is aware of any issue, I know that it will be resolved in a timely manner. I have found him to be tremendously knowledgeable as well conscientious, friendly, and helpful. He has gone above and beyond for us many times. He also speaks I.T. with me in a way that I can understand which can sometimes be difficult with the I.T. world. Thanks Casey!"

"What an awesome company with knock your socks off customer service! Their support after the sale is very impressive. Steve Huston is a great trainer and has helped us to take full advantage of our technology products. I have worked with various LOC employees over the years and I have always been very impressed!"

## We're Your Office Technology Partner!

Let's find an I.T. solution to fit your needs.
