Introducing the next generation CryptoCurrency Wallet that unifies both the consumers and merchants, and allows easy and fuss-free transaction of any blockchain assets.

Our Vision is to allow Blockchain assets to be used by ANYONE in the "real" world by bringing the following value proposition to both merchant and consumers

Send and receive any amount of money, instantly anywhere in the world, at any time

Holistic XInfinity Ecosystem that offer an one stop best-in-class solution with valuable features for both consumers and merchants

Cross chain payment channels ensure consumers can make payments using any cryptocurrency in their wallet

Low Cost for both consumers and merchants as compared to tradition payment processors
