

## **Slips / Trips / Falls**

10 steps to prevention

## Slips / Trips / Falls in the Workplace

# 20%

of workplace injuries are caused by slips, trips and falls.

These result in an average of **11 days** away from work and **\$40,000** cost per incident

**2/3 of lost time falls are “same level”**

\* Lower level: down stairs, from ladders, floors or docks

Injuries by Type of Incident

Severity & Frequency

# 10 Steps to Prevention

**OSHA recognizes the significance** of slips, trips and falls accidents. The agency states that “Slips, trips, and falls constitute the majority of general industry accidents.

**They cause 15% of all accidental deaths**, and are second only to motor vehicles as a cause of fatalities. The OSHA standards for walking / working surfaces apply to all permanent places of employment, except where only domestic, mining, or agricultural work is performed.”\*

\* The OSHA Walking and Working Surfaces Standard: Subpart D 29 CFR 1910.21-30, identifies requirements intended to minimize Slips, Trips and Falls in the workplace.

**Brady** provides a broad range of products and services designed to prevent workplace slips, trips and falls(S/T/F). These help to reduce the number of S/T/F-related injuries, and support compliance with OSHA, NFPA and other pertinent regulations and standards.

Train Your Employees

# Develop Programs / Mark Aisles & Passageways

## STEP 1

### Assess Your Needs; Develop a Program

**Section 5(a)(1)** of the OSHA Act, often referred to as the General Duty Clause, requires employers to “furnish to each of his employees employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his employees”. Section 5(a)(2) requires employers to “comply with occupational safety and health standards promulgated under this Act”.

### Brady On-Site Slips, Trips & Falls Audit & Assessment Service

Brady Professional Engineers will come to your facility and:

- Perform a complete audit of your facilities
- Document and summarize both required and recommended steps to minimize S/T/F concerns in the workplace
- Provide a basic written Program that encompasses facility inspection and employee training elements.

For more information, visit [www.BradyID.com/idservices](http://www.BradyID.com/idservices) or call 1-800-496-4040.

## STEP 2

### Mark Aisles & Passageways

**CFR 1910.22(b)(2)** Permanent aisles and passageways must be appropriately marked.

**1910.22(b)(1)** Where mechanical handling equipment is used, sufficient safe clearances shall be allowed for aisles, at loading docks, through doorways and wherever turns or passage must be made. Aisles and passageways shall be kept clear and in good repairs, with no obstruction across or in aisles that could create a hazard.

aisle marking

**TOUGHSTRIPE™**  
Floor Marking

### ToughStripe™ Floor Marking Tape

- Superior durability, easy application, high visibility
- Low-profile design minimizes tears and scratches from skids, pallet jacks, etc.
- Surface resists marks and smudges and cleans up like new
- Dashes, dots, arrows, footprints, and corner marks (L, T and + shapes)

#### Floor Marking Tape B-514

## STEP 4

### Improve Stair Safety

**CFR 1910.24(f) Stair Treads...** All treads shall be reasonably slip-resistant and the nosings shall be of non-slip finish.

#### Anti-Skid Cleats

- Made of B-916 grit-coated polyester tape
- Simply peel off protective liner and press in place
- Standard package: 50 cleats (printed legends 24 cleats)

Description	Size	Cat No.
Blank - Black	¾" x 24"	78192
Blank - Black	6" x 24"	78195
Blank - Black	5½" x 5½"	78196

#### Anti-Skid Cleats with Warning Message

- Made of B-916 grit coated polyester tape
- Cleat size: 6" x 24"
- Standard package: 24 cleats

Legend	Size	Cat No.
CAUTION	6" x 24"	78160
WATCH YOUR STEP	6" x 24"	78163

## STEP 5

### Mark Emergency Evacuation Routes

**OSHA CFR 1910.37**  
**1910.37(b)**  
**1910.37(b)(2)**  
**1910.37(b)(4)**

Maintenance, safeguards, and operational features for exit routes. Lighting and marking must be adequate and appropriate. Each exit must be clearly visible and marked by a sign reading "EXIT". If the direction of travel to the exit or exit discharge is not immediately apparent, signs must be posted along the exit access indicating the direction of travel to the nearest exit and exit discharge.

**1910.37(b)(6)**

Each exit sign must be illuminated to a surface value of at least five foot-candles... Self-luminous signs that have a minimum luminance surface value of at least .06 foot lamberts are permitted.

### Glow-in-the-Dark Anti-Skid Tapes & Cleats

- Made from B-916 grit-coated polyester tape
- Material is non-toxic, non-radioactive, environmentally friendly and installs easily
- Tape and cleats comply with ASTM E-2072 and ASTM E2073 standard specifications for photoluminescent safety markings and standard test methods for luminance of photoluminescent markings

Cat No.	Description	Size
99048	Glow-in-the-Dark ANTI-SKID Tape Roll	1" x 60'

Double-sided w/ bracket	38098	90840	90842	80755

## Emergency Evacuation Insert Frames

Attractive, clear acrylic frames hold your custom evacuation maps and are easily changed when updates are needed.

- Simply print and insert your map into the frame
- Non-glare, scratch resistant finish, 2 adhesive strips on back for easy installation

Cat No.	Size (H x W)	Material
102850	11"x 11½"/ holds a 8½"x 11" insert	Standard
102852	15"x 17½"/ holds a 11"x 17" insert	Standard
102851	11"x 11½"/ holds a 8½"x 11" insert	Luminous
102853	15"x 17½"/ holds a 11"x 17" insert	Luminous

# Safety Signage & Labeling

## STEP 6

### Post Safety Signage & Labeling

**CFR 1910.22(b)(2)** Permanent aisles and passageways must be appropriately marked.

**OSHA CFR 1910.144 and ANSI Z535.4-2007** Red (Red/White) shall be the basic color for the identification of Danger and fire protection equipment and apparatus. Yellow (Yellow/Black) shall be the basic color for designating caution and for marking physical hazards. Use black and white for traffic and housekeeping markings.

**1910.145(c)(3)** Safety Instruction signs shall be used where there is a need for general instructions and suggestions relative to safety measures.

## Brady B-534 Floor Marking Signs with Anti-Skid Tread

Brady B-534 ToughStripe™ floor signs are made with Brady's new B-534 polyester.

They are specifically designed to alert workers of potential dangers and enforce protective equipment requirements.

- 3 mil thickness
- Service temperature range of 0F – 129F
- Resists harsh chemicals
- Exceeds safety standards for clean, dry non-slip surfaces per ANSI A1264.2-2006 and OSHA 1910.22

#### ANTI-SLIP FLOOR SIGNS B-534

104116	Scafftag II Holder	10/Box	White	11½" x 6"
104117	Inspection Inserts	100/Pkg	Green	5¾" x 7½"
104118	Scafftag II Kit*	1/Kit		

\*Kits include 10 Holders, 20 Inserts and 1 Pen

#### Ladder Tags

LADDERTAG™ is a complete ladder safety management system. Regulations require ladders to be checked for damage, faults and wear before use by an authorized user, and may assist with the requirements of CFR 1926.1053 (a) (12), (b) (17) (i) (ii) and CFR 1910.25 (d) (1) (X)

#### LADDERTAG

Cat No.	Desc.	Qty.	Color	Size
104125	Holder	10/BOX	White	2¼" x 8¼"
104126	Inserts	100/PK	Yellow	2" x 6½"
104127	Kit*	1/KIT		

\*Kit includes 10 holders, 10 inserts and 1 pen

#### Micro Tag

A safety system which is particularly useful for identifying small plant, equipment, lifting gear and safety harnesses. Color coded and date qualified, the system also has the facility to render equipment in a 'prohibition status' should it be found to be faulty between inspection dates. Meets the requirements for OSHA CFR 1926.502 (d) (21) Personal Fall Arrest systems.

#### MICROTAG & INSERTS

Cat No.	Description	Qty.	Color	Size
104143	Microtag Kit*	1		
104152	Next Inspection Date Due	100	Green	1½" x 1¼"
104155	Next Inspection Date Due	100	Red	1½" x 1¼"
104157	Next Inspection Date Due	100	Yellow	1½" x 1¼"

\*Kit includes 20 holders, 40 cables ties and 1 pen

## Control and Clean Oil & Spills

**CFR 1910.22(a)(2)** The floor of every workroom must be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained, and ... dry standing places should be provided where practicable.

**STEP  
9**

### MRO Plus

- The standard in all-purpose, gray maintenance sorbents
- Absorbs all industrial liquids
- Three-ply construction makes it stronger, more durable and reduces lint
- Use anywhere there is a leak, drip or spill: production / machine areas, assembly lines, storage areas

### Battlemat

- Tough, long lasting
- Ideal as walk-on mats
- Suitable for single-use absorbents

## STEP 10

### Employee Slips / Trips / Falls Training

## Slips, Trips and Falls - Interactive CD-ROM Training

High-impact training covering the essentials of slips, trips and falls.

Most employees don't give much thought to the prospect of slipping, tripping or even falling on the job. Yet these types of accidents account for more workplace injuries annually than any other accident category. Many of these injuries can be disabling... or even fatal.

**Slips, Trips and Falls**, CD-ROM format, shows employees the situations that can lead to slips, trips and falls, and what they can do to avoid or prevent these accidents.

This training covers the following topics:

- Why slips, trips and falls occur
- Common causes of accidents
- Potential health effects of resulting injuries
- Techniques used to avoid injury
- The importance of safety shoes
- How to "fall" safely
- And more!

Using a powerful combination of audio, full-motion video, text, topic tests, and colorful graphics, Slips, Trips and Falls provides cost-effective, easy-to-use training. It's divided into topic-based lessons so information is easily understood and retained.
