

Building a Healthier Montana Takes a Team

With communication and education between prescribers and pharmacists, we can see Montana continue to lead the way in patient care and opioid dependence reduction.

DREAMTEAM

Building a Healthier Montana Takes a Team

Be prepared to continue the conversation with your patients about the 7-day limit and what it means for them. Then, continue to work with pharmacists by checking the registry and prescribing accordingly.

7
DAY
1-2-3

1

PATIENT CHECK

Check the registry, is your patient opioid naïve?

2

PRESCRIBE ACCORDINGLY

Yes? Then the 7-day prescription period is required.

3

WORK THE DREAMTEAM

Tell your patients, and work with pharmacists to see the new law through.

To help facilitate communication amongst your network, we've developed a toolkit with resources for you to share.
