

What Patients *Have to Say*

AcceleDent was amazing for me because I wanted to accelerate the treatment process and it was ideal to reduce the discomfort I was experiencing.
- Karen M.

Thanks to AcceleDent, what should have been a two-year ordeal took only one year. I couldn't recommend AcceleDent more!
- Miguel A.

I strongly recommend AcceleDent for anyone who wants to reduce their treatment time, and it's so easy to use!
- Jean B.

I am so thankful to have found AcceleDent. I especially loved using it on days when I would switch trays, which helped alleviate the pain. I am so impressed with how quickly I saw results, and would absolutely recommend it to everyone!
- Andrea A.

Designed to *Fit Your Lifestyle*

AcceleDent Optima combines high-tech performance features and a comprehensive app to enhance your accelerated orthodontic experience and empower you to become a full participant in your treatment.

AcceleDent App

How Teeth Move

Teeth move through a process called bone remodeling. When force is applied to the teeth, bone cells (osteoblasts and osteoclasts) are mobilized around the root of the tooth. This cellular response causes changes in the bone surrounding the tooth, enabling orthodontics to guide tooth movement.

Tooth movement Illustrated

How AcceleDent Optima Works

AcceleDent Optima's patented *SoftPulse Technology* applies precisely calibrated vibrations called micropulses that transmit through the roots of your teeth to the surrounding bone. **This gentle vibration helps increase the cellular activity and speeds the rate in which your teeth can move.**

UP TO
50%
FASTER

Accelerated Treatment

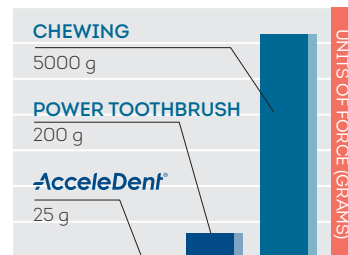

When used with braces or aligners, *AcceleDent Optima* is clinically proven to move teeth up to 50% faster¹.

UP TO
71%
LESS PAIN

Reduced Pain and Discomfort

AcceleDent Optima is also clinically proven to reduce the pain and discomfort associated with braces and aligners by up to 71%¹.

SoftPulse Technology micropulses are safe and gentle. They exert up to 8x less force than a power toothbrush and 200x less force than ordinary chewing¹.

The Benefits of Accelerated Orthodontics

In addition to faster, more comfortable treatment, *AcceleDent Optima* can lead to many other benefits. Accelerated treatment often requires less orthodontic office visits. Accelerating the orthodontic treatment process can also reduce oral health issues by decreasing the risk of white spots, cavities and gum inflammation¹.
