

LABOUR CREATED THE NHS...

With Boris Johnson's plans to sell the NHS to the US revealed, and his party having brought the NHS to its knees, this election is a fight to save our NHS. We can't get GP appointments when we need them, over four million of us are waiting for routine operations and hospitals are seeing the longest A&E waits since records began.

We need real change.

Labour will rescue the NHS, reverse the devastating healthcare cuts and ensure all of us receive outstanding care in the best health service in the world.

'I've seen first hand the effects of Tory austerity on the NHS and the people that use it. It's essential the Labour Party wins the next General Election, I genuinely fear for society and the future of the NHS if we have another 5 years of Conservative government.'

— Lucy Shapcott
Emergency Nurse Practitioner

We will:

- + End NHS privatisation
- + Boost NHS spending by **4.3%** per year and invest it in doctors, nurses, community mental health hubs and more.
- + **£450m** for free NHS dental check-ups for everyone in England
- + Scrap prescription charges in England

How will we pay for it?

We're the **6th richest economy in the world** - we can afford outstanding healthcare.

Labour's plan would see the **top 5% of earners** and corporations paying a little more, while **95% of people wouldn't pay a penny more income tax or national insurance.**

...**ONLY LABOUR**
CAN SAVE IT!

LABOUR **CREATED**
THE NHS...

...ONLY LABOUR
CAN SAVE IT!
