

CUSTOMER FINANCING INTEGRATION NOW AVAILABLE FOR DRSG AND OTS

Customer financing options are available to make tire purchases and vehicle maintenance more manageable.* Financing can be seamlessly integrated with the Nissan Maintenance Advantage Dynamic Retail Selling Guide® (DRSG™) and your Online Tire Store (OTS) to offer payment quotes for tires.

Integration is simple and offers these key dealer benefits:

Estimated payment quotes provide a solution to cost objections so you can close more sales and **increase overall service revenue.**

Tires are a key defection point, and the availability of financing **encourages customers to come back** to your dealership.

The quick and easy application process **builds customer confidence and satisfaction.**

According to a May 2020 Marketplace® poll,

41% of Americans said they could not pay an unexpected \$250 expense, and 59% said they could not pay an unexpected \$1,000 expense.

Tires can be an unexpected expense for customers, and financing helps make these purchases more accessible.

Don't miss out on another sale! To get started, follow the easy instructions below:

Sign up for financing directly through an approved Nissan provider.
