School Social Work: Practice, Policy, and Research has been a foundational guide to the profession for over 40 years. Featuring 30 readings divided into five parts, this best-selling text reflects the many ways that school social work practice impacts academic, behavioral, and social outcomes for both youths and the broader school community. The essays include selections from both pioneers in the field and newcomers who address the remarkable changes and growing complexities of the profession. The ninth edition of *School Social Work* features a stronger focus on evidence informed practice and adds substantial new content related to antiracist practice and trauma-informed care. It retains the holistic model of school social work practice that has informed all previous editions of this cornerstone text, making it a relevant and vital resource for today's practitioners and students as schools grapple with how to deal with the COVID-19 pandemic and its aftermath.

New to This Edition

- **Nine new chapters** add substantial content on topics such as anti-racism, bullying and school violence, data-driven school services, and trauma-informed care
- **Twelve new school social work experts** bring their knowledge to bear on new and existing issues in the field
- **More case examples** of how school social workers are applying these ideas, interventions, and tools to their practice
- **Additional chapters and content** that align school social work practice within a multi-tiered systems of support (MTSS) framework

Distinguishing Features

- **This classic, bestselling text** covers all facets of school social work practice, policy, and contemporary research
- **A three-prong focus** on antiracist practice, evidence-informed practice, and trauma-informed interventions fully prepares students for the cutting-edge issues facing the field of school social work today
- **Accompanied by** a robust set of instructor resources

Digital Resources

- **Instructor's Manual** featuring activities, assignments, multiple choice questions, and essay questions
