WARNING:

CAUTION: Follow Label Directions. The addition to feeds of higher levels of this product containing Selenium is not permitted.

Store in a Cool, Dry Environment

WARNING: This product contains copper. Do not feed to sheep.

INGREDIENTS:

Monocalcium Phosphate, Salt, Processed Grain By-Products, Calcium Carbonate, Molasses Products, Vegetable Oil, Zinc Sulfate, Magnesium Oxide, Calcium Stearate, Copper Sulfate, Manganese Sulfate, Sodium Selenite, DL-Alpha Tocopheryl Acetate (Source of Vitamin E Activity), Vitamin A Supplement, Vitamin D3 Supplement, Cobalt Carbonate and Ethylenediamine Dihydroiodide,.

DIRECTIONS FOR USE:

This mineral is recommended for free-choice feeding for all cattle receiving rations composed mostly of grass hay, grazing range or grass pastures. This mineral is ideally suited for spring-calving beef cows mid-summer to early-winter feeding period. Optimum intake is 2 to 4 oz per head daily. Maximum intake is 4 oz (0.25 lb) per head daily.

Cattle, which have been receiving phosphorous-deficient diets, may over consume mineral when first offered. During the first 5 to 7 days of free-choice feeding, limit the offered mineral to 1 lb for every 5 to 8 head per day.

To help assure adequate mineral intake, remove all other salt and mineral products. Have adequate water supply available and place the mineral feeder near the water supply or in the animals' loafing area. Put out fresh mineral at least once a week. An upright covered mineral feeder is recommended to protect the mineral from weather.

Formula Code: ALX42101

NET WT. 50 lbs. (22.68 Kg)
