

INTRODUCING

Advizex Limited Wifi Troubleshooting Assessment

Is your organization's Wi-Fi Network as reliable as your wired network?

At Advizex, we are experts in performing comprehensive evaluations of wireless and network infrastructure. These assessments encompass key areas such as Signal strength, coverage, interference, and channel utilization which are key factors in ensuring optimal Wi-Fi performance

Assessment Overview

1. Limited on-site WiFi survey

- a. Office Building/retail space: single floor up to 15K Sq Ft
- b. Hospital: single floor up to 10K Sq Ft
- c. School: single floor up to 15K Sq Ft
- d. Warehouse: up to 25k Sq Ft (overall area to be determined by site based on shelving, inventory on floor, and machinery in place)

At the conclusion of the assessment, a report of your current WiFi environment will be delivered and presented by the Advizex team.

Are you ready???[™]
