

Digital Wallet

Why use a digital wallet?

- Faster checkout: Just tap your phone to pay!
- No need to carry your physical card.
- Enhanced security:
 - Your actual card number is not shared with merchants – reducing fraud risk.
 - Requires fingerprint, face ID, or passcode to authorize purchases.
 - You can disable your wallet if your device is lost or stolen.

Add an It'sMyCU debit/credit card to your digital wallet (Google/Android):

- Open the Google Wallet app.
- Tap on the Add to Wallet option.
- Select Payment card.
- Hit New credit or debit card.
- Scan your card, take a picture of your card, or you can enter your card details manually by selecting the "Enter Details Manually" option.
- Follow the on-screen instructions
 - Tap Accept when prompted, then you might be asked to verify your payment method. Simply choose an option from the list, then you can verify it by following the on-screen steps.
- Tap Save.

Add an It'sMyCU debit/credit card to your digital wallet (Apple):

- Open the Apple Wallet app.
- Tap on the "+" button.
- Select "Credit or Debit Card."
- Click continue.
- Scan your card by placing your phone on the back of the card, or enter your card details manually by selecting the "Enter Card Details Manually" option.
- Verify your card.
 - You may need to verify your card with the credit union. This typically involves receiving a code via text message or email and entering it into the Wallet app.
- Before your card is added to Apple Wallet, you will need to agree to the terms and conditions.
- Your card should now be successfully added.
