

## Save time with the Husky hydraulic fittings seal kit

Make sure that you never have a shortage of hydraulic fitting seals ever again.

Our new seal kits save you time by providing a series of different sizes in a custom designed case, ensuring that always have the right sized seal available when you need them.

The kit includes seals for all hydraulic type of fittings that you can find on your HyPET, HyCAP or Hylectric machine, including split flange fittings, straight threat fittings and face seal fittings.

Part number [HPN 7664156](#)

Also available the universal manifold seal kit for **G-line** and **X-line** machines [HPN 239255](#)
