

SKYNET

REACH Duress

Instant Duress Alerts. In app or via the Bluetooth Pendant.

Designed for field workers operating in high-risk environments where an always-on Duress Solution is critical to their safety & well-being.

WHY REACH DURESS?

SkyNet's REACH Duress mobile app is the latest evolution in Lone Worker and Remote Worker safety, delivering an Enterprise-Grade duress alert system for your field staff.

- > Integrate our Grade A1 level response service to provide an unmatched level of round-the-clock professional monitoring.
- > Simple operations allows user to immediately notify management in the event of an emergency or impending dangerous situation
- > Passive tracking allows the app to pinpoint the staff member's location by utilising mobile GPS positioning data.
- > Can be integrated with your company's Emergency Response Plan
- > IP67-Rated Bluetooth Pendant pairs with your phone to allow for remote or discreet activation of Duress.

KEY FEATURES

GPS POSITIONING

The app runs in the background to ensure it knows the last known location in the event a duress needs to be sent.

INSTANT DURESS ALERTS

Either in-app or via the included Bluetooth Pendant.

24/7 MONITORING AVAILABLE

As an Enterprise Bureau, SkyNet can ensure that the highest level of security is always a priority and that there is someone at all times looking after the safety of your staff.

NOW WITH IP67 BLUETOOTH PENDANT

SkyNet's REACH Duress mobile app pairs with a robust IP67 rated Bluetooth Pendant which allows you to covertly or remotely trigger a Duress Alert without opening the App on your smartphone.

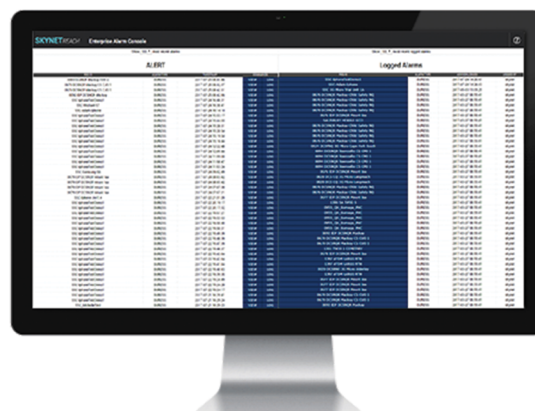

The pendant will vibrate once the Duress Alert has been received by SkyNet's secure servers.

24/7 MONITORING FOR YOUR TEAMS

All of your team's devices can be integrated into our 24/7 Monitoring Service for round-the-clock peace of mind. This will display last known location of the device by utilising the in-built GPS of the phone.

We configure this workflow to suit your Emergency Response Plan meaning you don't have to worry about who to notify in the event of an emergency.
