AMERICAN CREDIT BUREAU, INC.

Patients are responsible for approximately 30 to 35% of a practice's revenue. Patient-owed balances are notoriously time consuming and difficult to collect. A practice must have a collection process in place that is timely, and delivers escalating consequences for non-payment. If a practice continues to use outdated collection processes, it is predicted that 81% of patient-owed balances will never be recovered. Learn how to collect 3x times more of your patient balances, with far less effort.

SOLUTIONREACH

Solutionreach is revolutionizing the patient-provider relationship. Why? Because we get it. We know providers want meaningful patient relationships. We also understand that demands on physicians and administrative staff rarely allow for the patient interaction that both sides want.

That's why we created the industry's leading patient relationship management platform to empower providers with the tools they need to maximize patient relationships and foster loyalty.
