RECONSTRUCT, OFFERS ADVOCACY SERVICES TO CHILDREN AND YOUNG PEOPLE IN CARE

Advocacy is helping someone have their say, representing views, feelings and wishes to ensure they are fully considered by decision makers. Advocacy is empowering children and young people to ensure their rights are respected.

Advocacy is about making sure that children and young people are given a voice, that they get the help they need when they need it and making sure that someone is always ready to listen to them and act quickly to support.

ABOUT OUR SERVICE:

Reconstruct are a separate service, completely independent of a Local Authority. Our role is to support and relay the views and wishes of the child or young person and to ensure their voice is represented.

There are many reasons why children and young people have an advocate; they might request an advocate themselves, or may be referred by a Carer, a Social Worker or another Adult who feels that they should have access to Independent Advocacy Support.
