Our terminals

No matter what type of business you run or what needs you have, Bambora has a fast, secure and easy-to-use card terminal for you.

Choose your terminal

With Bambora you can choose if you want your terminals to be standalone or integrated to your POS solution.

These terminals can either be wireless or stationary, and whatever you choose you always get a fast, secure and reliable terminal from us, equipped with all the features you need.

Should the terminal break down, we will send you a new one within 24 hours.

Stationary

A stationary terminal is perfect for stores with a fixed checkout counter where all customers pay.

Bambora ICT250

includes:

- Power cord
- Network cable (ethernet)
- Starter kit with cashier receipt rolls and cleaning cards

This terminal can either be used as a standalone or it can be integrated with your POS solution.

Bambora IPP350

includes:

- Cabel kit for power supply and connection to your POS solution.

This terminal can only be used when integrated to your POS solution and does not have a receipt printer.

Wireless

Our wireless terminals are perfect for restaurants , bars and other businesses where you need to be able to accept payments in different places. The receipt is printed directly from the terminal.

Bambora IWL250 3G/GPRS/BT

includes:

- Docking-station with power cord
- SIM card
- Starter kit with cashier receipt rolls and cleaning cards

This terminal can either be used as a standalone or it can be integrated with your POS solution.
