9. Tap the available reader to start pairing the reader with the application, at which point the Pair your Reader dialogue will disappear. The application will then provide you with a Bluetooth Pairing Request.

10. Enter the code, as prompted.

11. If the code matches, the application will begin pairing with your reader. Important: While Pairing or Setting up process is in progress: The "Disconnected Reader + Spinner" animation will be shown to the user in the app's header AND the Text under the reader in My Readers will be Connecting... (The entire Reader row and the Info icon will not be tappable)

12. Only after the reader is ready to accept transactions (after Setup) the following events will happen at the same time:

- The "Disconnected Reader + Spinner" animation will be replaced by the "connected reader" icon AND
- The Connecting... text on the Reader row will be replaced by Connected.
- A Moby/8500 icon will appear on the screen to confirm pairing.
