
How do I know the status of the battery in my Moby/8500 Reader?

Posted: Jul 22, 2021

- When the battery is fully charged, the red light on the device will remain illuminated.
 - When the battery is at 10% or less, the Red light will blink intermittently on the device.
 - Additionally, if the battery level is 15% or less, there is a visual indicator on the navigation bar indicating that the reader's battery is low.
