How to Check if Reader Requires Firmware Update

Posted: Mar 15, 2018

Please note: Your reader must be paired via Bluetooth before performing Remote Firmware Update (RFU). To connect, please see the section on Connecting Via Bluetooth for your specific reader.

If your reader requires an update, you should be prompted on login with the following notification:

\leftarrow	0	Add to Cart
7	8	9
4	5	0

If not, you can check for updates at any time by following the instructions below:

1) Navigate to the settings menu, and click on Bluetooth Readers.

		՝ ≱ 🕕 💎 🖥 4:05
≡ Settings		
Transactions	Dair a Now Doador	
Receipt	Pair a New Reduer	
Security	Paired Readers	
Bluetooth Readers	RP750-10000382 Setting up	í
	RP750-1000001 Tap to connect	i
	RP750-10000298 Tap to connect	í

\triangleleft	0	

2) Click on the connected reader that you wish to check for a firmware update.

3) You will be prompted with the following screen. Click on Check for Update.

					* 🕩 🗢 🛢	4:06
