AVANTAGE[®] ENTERTAINMENT

Avantage Entertainment is entering the global iGaming space with an innovative new approach. Our games will raise the bar for iGaming by delivering live odds to newly styled social and real money competitions delivered through immersive entertainment.

We are developing a portfolio of pool-based casino games with a fresh take, powered by the **Avantage Competition Engine (ACE)**. Our first game, **Avantage Baccarat**, takes the experience of live dealer Baccarat to another level.

BANK

Avantage Baccarat is a new kind of Baccarat that honors traditions, yet adds exciting new twists. Part entertainment TV, part social engagement, part online gaming – all blended into one unique experience.

There are 6 players at the table, plus a croupier. Each player gets a turn in the bank position and takes on the remaining 5 players at once. The bank rotates to the next player in line after each hand.

Unlike traditional Baccarat, **Avantage Baccarat** features up to 5 betting rounds per hand, instead of just one.

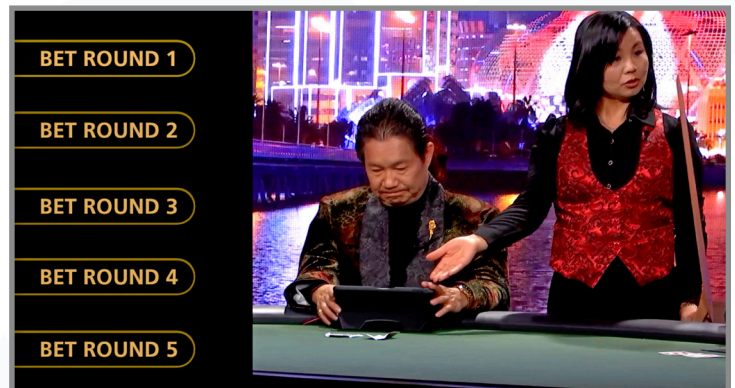

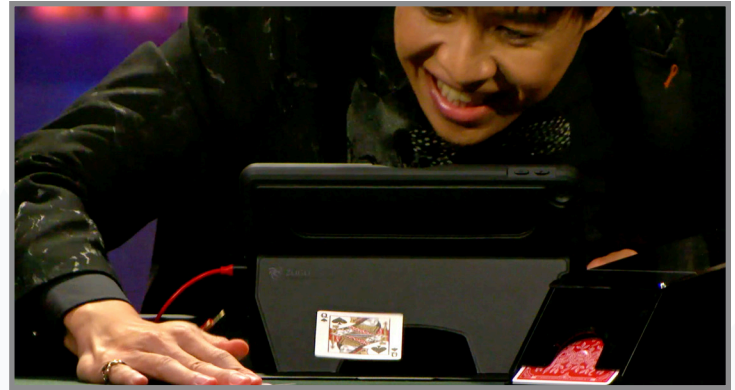

Players can place bets not only on themselves, but on every other player at the table, except for the bank.

From our studio, elaborate TV productions of every game will be live streamed globally to players around the world.

Fans playing along remotely on their mobile devices or computers can:

- ◆ Compete in pools against an unlimited number of players around the world
- ◆ Place bets on the players and the bank at the same time
- ◆ Digitally squeeze cards
- ◆ Track their progress on leaderboards, stat sheets, and roads

The top 30% of players in every pool split the winnings of that pool.

WSBC

World SportsBook Competition

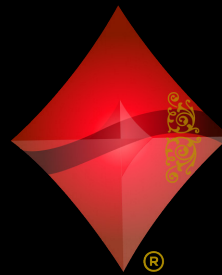

[Click here to see a video preview](#)

WSBC will support thousands of competitions between fans of the world's top Premier League clubs and add other leagues and sports. This will open up the Avantage experience to over 2 billion football fans across the world to challenge their friends, compete socially in Leagues and/or in thousands of real money pools.

WSBC's new immersive model will take SportsBook competition to a new level and is available to everyone, with pool entry fees ranging from \$1 to \$10,000.

Different from, and complimentary to any existing SportsBook product(s) in one's portfolio, **WSBC** will generate new business and increase customer loyalty.

ACE

AVANTAGE COMPETITION ENGINE

ACE ushers in a new level of gamification and player engagement for the casino industry and was built to support all types of games, including: **Baccarat / Poker / 21 / Slots / Sportsbook / Virtual / Horse Racing.**

Players on their mobile devices or computers are able to watch the game and compete against one another in:

- ◆ Single level pools which enable players to enter for as little as \$1 and win millions – essentially the lottery's allure
- ◆ Multi-level pools where players can win their way up, or buy their way in to compete for shares of greater payouts

- ◆ Targeted tournaments and leagues that fully leverage people's affinities and desire to challenge and compete
- ◆ Challenges and social competitions with their friends

ACE and **Avantage Baccarat** hold exclusive rights to 23 international utility patents issued across the world including: **China / Macau / United States / Japan / Singapore / Malta / Philippines / Korea / Vietnam / Australia / Gibraltar / Cambodia.**

AVANTAGE[®] GAME STUDIO

Avantage Baccarat will initially be shot in and streamed from our London Studio under our existing UKGC license.

Versions of the games will be live-streamed with Mandarin, Cantonese, English and Spanish commentary.

The Future

AVANTAGE[®] COMPETITION ARENA

This unparalleled gaming experience will feature a spot-lit center table surrounded by luxury suites aimed at the ultra-wealthy and their entourages.

The entire Arena is flexibly designed to double as a tournament environment and includes a built-in, state-of-the-art Studio.

The Arena will accommodate all types of games which may be streamed across the world via the **Avantage Platform** to our B2B partners' websites for distribution.
