Acknowledgement of country

Victoria University (VU) acknowledges the Elders, families and forebearers of the Boonwurrung, Woiwurrung (Wurundjeri) and Wathaurung (Wadawurrung) who are the custodians of University land and have been for many centuries.

We acknowledge that the land on which we stand is the place of age-old ceremonies of celebration, initiation and renewal, and that the Kulin people's living culture had, and has, a unique role in the life of this region. VU supports the aim of Reconciliation Australia to build better relationships between the wider Australian community and Aboriginal and Torres Strait Islander peoples for the benefit of all Australians.

Artist: Paola Balla, Moondani Balluk, 2017

The Moondani Balluk stole, a cherished symbol of pride and honour, represents the rich cultural foundation and the academic success of our Indigenous graduates. Recognised as part of official academic dress, the Moondani Balluk stole is worn together with the stole or hood representing the award you have achieved. Created by Paola Balla, the Moondani Balluk design shows the embodying relationship between the University and Moondani Balluk, and the meaning of 'embracing people' – being embraced by VU. Moondani Balluk academic unit

Moondani Balluk means 'embrace people' in the Woiwurrung language of the Wurundjeri people.

Our vision for the Moondani Balluk Academic Unit is to create and foster:

- ◆ A culturally sensitive environment that welcomes, nurtures and recreates community based on relationship to land, culture, law and elders
- ◆ Sharing of Aboriginal knowledge and to integrate Aboriginal practices into its curricula, research and work
- ◆ Respect for all people through mutually engaged relationships
- ◆ A commitment to pursuing political and social justice, equity, and access to education for Aboriginal and Torres Strait Islander people
- ◆ Accountability to Aboriginal cultural values, protocols and norms.

Moondani Balluk assists all students with:

- ◆ ABSTUDY applications and other financial assistance
- ◆ Course and enrolment advice
- ◆ Academic support through tutoring and mentoring, and use of computer and photocopying facilities
- ◆ Access to the Aboriginal and Torres Strait Islander Resource Library
- ◆ Social support through our campus locations, cultural awareness activities, community organisations and events
- ◆ Referral to counselling
- ◆ Referrals and support in housing and finance matters
- ◆ Career and employment advice through cadetships, work experience and job listings.

All Moondani Balluk staff maintain close links and relationships with the Koori community, working closely with the Office of Aboriginal Affairs Victoria, Local Aboriginal Network, the Department of Justice Western Metropolitan Regional Aboriginal Justice Advisory Committee, the Department of Human Services Indigenous Family Violence Regional Action Group, local members of the Koori community in the western suburbs of Melbourne and Aboriginal statewide organisations.

A message from the Chancellor

As Chancellor of Victoria University, I take enormous pride in the achievements of our graduates. It is a pride shared by your family, friends, and all VU staff and Council members.

Your success is a testament to your hard work and dedication, and today's graduation marks a significant personal milestone in your journey. Each ceremony serves as a vibrant celebration of our institution's diversity and underscores the joyous spirit of the occasion.

Throughout your time at VU, we have equipped you with the knowledge and skills you need to thrive in the modern world. Our education has not only provided you with academic strengths but also instilled in you a deep understanding of the workforce and an appreciation for the communities we all serve. We are now sending you out into the world to make a difference.

To each of our graduates, enjoy your well-deserved graduation day. I encourage you to reflect on all that you have accomplished and on the many experiences that are still to come.

You will always remain a member of the VU family and I hope that VU means as much to you as it does to me. Please stay connected through our extensive alumni network and keep us updated on the achievements you are about to unfold.

Congratulations, and my very best wishes for an exciting and successful future.

Regards,
Steve

The Hon. Dr Steve Bracks AC

CHANCELLOR

DipBusStudies(Accounting),
GradDipEducation(Economics)UB

A message from the Vice-Chancellor and President

Welcome – and my heartfelt congratulations to all graduands at this important ceremony. I am delighted to celebrate your achievements in 2024.

It is clear that our students are diverse, resilient, resourceful and passionate about achieving their goals. Your achievement here today is remarkable, and I hope you are as proud of yourself as we are.

In graduating from VU, you become alumni of a university among the world's best. This enhances the value of the qualification you have worked so hard to earn and will assist you as you forge ahead with your career.

I can think of no other Australian university with more potential than VU to influence and contribute to its communities. This is where you come in: your award is an opportunity to make a real contribution to the workforce and to society, anywhere in the world.

I join the Chancellor in encouraging you to remain connected to the University as part of our ever-growing alumni community. I look forward to hearing more from you as you join us as valued ambassadors for the University.

Congratulations on reaching this exciting milestone.

With personal best wishes,
Adam

Professor Adam Shoemaker

VICE-CHANCELLOR AND PRESIDENT

BAHonsQU(Canada), PhDANU

Start well, finish brilliantly

Congratulations! You have achieved a significant milestone. You have succeeded in your tertiary studies, and you are now a proud VU graduate.

Start well, finish brilliantly is the title, and spirit, of our Strategic Plan 2022-2028. What does this mean? It encapsulates a range of meanings. For you, our graduates, it means that we equipped you with the knowledge, the environment, the teachers and the tools you needed throughout your time at VU to succeed.

We prepared you to thrive – all the way from day one to graduation day. Whether it was our one-of-a-kind First Year College that made a difference, the revolutionary VU Block Model, or our skills-focused training – the VU experience was designed to realise your achievements.

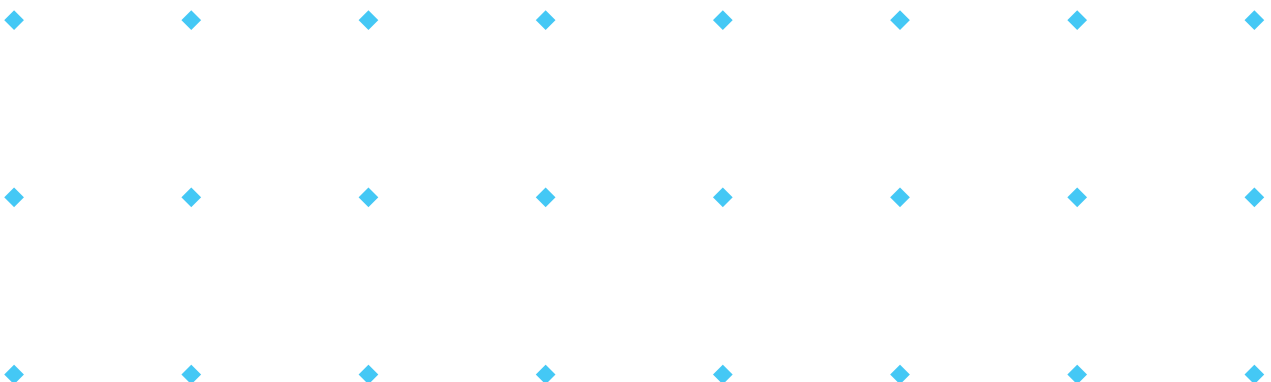

What you have gained from VU takes you well into your career. As a VU graduate, you are well placed for success. Employers rate Victoria University graduates as the most employable in Australia, according to Australia's most comprehensive independent survey of employer satisfaction (2020 and 2021). This is a great result that demonstrates that you graduate from VU job-ready. VU has a long history of ensuring graduates, regardless of their personal backgrounds, successfully transition

from their studies to the workforce as they embark on building rewarding careers. We have ensured that industry is integrated into our learning and teaching, and we have many longstanding partnerships that have a multifaceted impact on all we do.

You graduate today, but you are not forgotten. At VU, we keep our alumni informed, connected and engaged. With more than 270,000 alumni worldwide, alumni are inspiring current and future students and actively supporting students through mentoring, providing placements, and relevant careers advice.

And although continuing your studies one day may be the furthest thing from your mind at this moment, we look forward to welcoming you back when the time comes.

After all, there are many different starting points in our lives – and you are at an exciting starting point right now.

The university mace – an established tradition

Our graduation ceremonies begin with the entrance of the University mace, signifying the authority of the Chancellor. Carried by the Mace Bearer, the mace symbolises learning, scholarship and our rich history. The mace connects us with those who have come before and those who will follow in the pursuit of learning. Made of sterling silver and 24-carat gold, the design includes the letter 'V', standing for Victoria – our University's home and namesake.

Academic dress

Wearing academic dress on ceremonial occasions is a celebrated university tradition, and generally consists of a gown (also known as a robe) with a separate hood (also known as a stole), and usually a cap – doctoral candidates wear a bonnet. Throughout the Commonwealth, universities usually follow the academic dress style of Oxford or Cambridge. Our academic dress is based on the Oxford style. Traditionally, the Chancellor’s gown is faced in gold and the Vice-Chancellor’s gown is faced in silver.

The colour of the hood (stole) identifies the discipline:

| | |
|-----------------------|--|
| Ruby | Arts |
| Ultramarine | Business or Business Administration |
| Cherry | Education |
| Silver Grey | Engineering |
| Old Rose | Health Science |
| Parchment | Law |
| Pansy | Music |
| Buff | Psychology |
| Spectrum Green | Science, Applied Science and Sport Science |
| Gold | Social Studies |
| Gold | Sport and Recreation |
| Adonis Blue | Doctor of Business |
| Cherry | Doctor of Education |
| Graphite | Doctor of Engineering |
| Pearl White | Doctor of Laws |
| Ruby | Doctor of Letters |
| Sapphire | Doctor of Philosophy |
| Old Gold | Doctor of Psychology |
| Spectrum Green | Doctor of Science |
| Sky Blue | Doctor of the University |
| Tangerine | TAFE Certificates |

The gowns worn by graduating students help distinguish undergraduate and higher degrees:

- ◆ undergraduates and postgraduates wear a black gown – Vocational Education, Further Education and undergraduate gowns have a large slit in each sleeve
- ◆ the masters gown has a long narrow sleeve extension
- ◆ doctoral candidates wear a red gown.

Masters – a black gown and black cap with a black hood fully lined with the discipline colour.

Doctors – a black bonnet with a gold cord, a scarlet gown with a facing and a black hood fully lined with the discipline colour.

First Nations/Indigenous Australians – The academic dress of your award is worn together with a calf length black and patterned silk stole that has the Moondani Balluk name and a portion of the Moondani Balluk logo.

Academic dress for particular awards is as follows:

Certificates – a black cap and an undergraduate gown with a black stole with a facing of tangerine.

Diplomates and Graduate Certificates – a black cap and an undergraduate gown with a black stole with a facing in the discipline colour.

Bachelors – a black gown and black cap with a black hood half lined with the discipline colour. The hood for the honours degree has a white band on the edge of the hood.

The logo design is evocative of the western region of Melbourne. The black lines represent boomerangs that speak to the return of knowledge to the Aboriginal community from the University and from the Aboriginal community to the University. The eel shape represents the Traditional Owner food source while the line designs within represent Traditional Owner land, culture, law and connection as continual. The bora ring shapes in the left hand side stole panel represent Indigenous knowledge, respect and justice, and our relationships to land, culture, Elders and lore.

In official abbreviations of our awards, Victoria University is abbreviated to VicMelb.

Welcome to the alumni community

Congratulations and welcome to the Victoria University Alumni community! You are now part of a growing global network of more than 280,000 alumni living and working in 130 countries around the world. The VU Alumni Relations team is here to support you. We hope you will be an active member of this remarkable community.

Share your achievement

Celebrate your graduation with friends and family by using **#vualumni**

We will share candid photos from graduation day so make sure you check the VU alumni social media channels.

Stay connected

Keep your contact details up to date and you will receive special offers on further study, invites to alumni events and regular e-newsletter with the latest news from VU.

As part of the VU alumni community, you will also develop your professional networks and get the tools and support to help build your career. You will connect with fellow alumni in your industry, hear about job opportunities, and find out about ways to further develop your skills.

You will also have the chance to make a real difference to students. You could help shape the future of study at VU, be a mentor, offer work experience or be a guest speaker.

Get career support

You can continue to access VU Employ, including the Career Toolkit, for up to two years after graduation.

To find out more about VU Employ's services or to book an appointment with a highly qualified and experienced Career Consultant, contact the team at **vuemploy@vu.edu.au**

Doctor of Business Administration

Genevieve JUJ

Thesis title: Medical Care in Thailand: Motivating Factors for Australians

Citation: Genevieve investigated why Australians travel to Thailand for medical, surgical, and dental procedures, using a multi-methods research approach. Accessibility, cost and quality of services provided in Thailand were the major motivators. Findings will be of interest to Australian medical tourist operators as international travel returns following COVID-19, and healthcare providers and health policymakers now re-examining health-related services following the pandemic.

Supervisor(s): Dr Beverley Llyod Walker, Dr Leanne White

Doctor of Philosophy

Abdulaziz AL NAIM

Thesis title: Direct and Indirect Effects of the New Saudi Company Regulations on Financial Reporting Quality

Citation: This thesis concludes that there was only a direct significant effect on financial reporting quality in Saudi Arabia after the introduction of the New Saudi Company Regulations. This result confirmed that there is a broad level of institutional pressure by the Kingdom to improve Financial Reporting Quality in Saudi companies, enabling them to achieve one of the main objectives of Vision 2030

Supervisor(s): Professor Alan Farley, Dr Hong Yang

Abdulrahman AL SHAMLAN

Thesis title: Resilient Leadership: A Study Connecting Saudi Vision 2030 and the Higher Education Sector

Citation: Abdulrahman's pioneering doctoral research investigates resilient leadership in Saudi Arabia's higher education for Vision 2030. The study crafts a bespoke framework, involving leaders from three public universities. Offering crucial policy and strategic reform implications, it underscores the need for resilient leadership training. This work significantly contributes to research, empowering leaders to enact transformative change in Saudi higher

education aligned with Vision 2030 goals.

Supervisor(s): Dr Selvi Kannan, Associate Professor Albert Haddad

Khalid ALAHMARI

Thesis title: The Role of Time-Driven Activity-Based Costing in Integrated Supply Chain Management: An Empirical Study of Modelling Operational Costs at 4PLs

Citation: This research investigates the role of Time-Driven Activity Based Costing (TD-ABC) at 4PL companies. The researcher found that TD-ABC can accurately capture the cost of complicated and lengthy logistics activities. This research should contribute to both knowledge and practice as it provides new insights on how to model the cost of new-era logistics services.

Supervisor(s): Professor Sophia Everett, Professor Colin Clark, Dr Pari Sima Nassirnia

Eman ALANZI

Thesis title: Modelling and Forecasting Saudi Arabia Inbound Tourism Demand

Citation: The study used modern econometric approaches to forecast international tourism arrivals to Saudi Arabia. It examined the impacts of economic and non-economic factors including human rights, political risks and destination prosperity. The research contributes to the knowledge in the field of tourism economics, forecasting and policy development. Eman received international recognition for her work via prestigious conferences and high ranking journals

Supervisor(s): Dr Nada Kulen, Dr Thu-Huong Nguyen

Zaki Mrzog ALAOFI

Thesis title: Numerical Treatments of Some Types of Nonlinear Partial Differential Equations

Citation: Zaki's thesis provides new innovative numerical methods to solve linear and nonlinear partial differential equations that play an important role in modeling real life problems arising in Science and Technology. Its primary goal is to focus on polynomial and non-polynomial spline methods to approximate the solutions of these equations with integer and fractional orders and discuss their stability and convergence.

Supervisor(s): Professor Sever Dragomir, Professor Talaat Elsayed Aly El Danaf

Mahdi Ahmed ALHAMAMI

Thesis title: Impact of Sustainability Reporting on Saudi-Listed Firms Performance under the Moderating Effect of Corporate Governance

Citation: Mahdi's thesis developed a modified GRI index to assess the impact of sustainability reporting on financial and non-financial performance of Saudi Arabian firms via the moderating role of corporate governance. Mahdi's findings confirmed the suitability of the framework for Saudi Arabia and its potential generalisability to other countries. It also provided important governance implications to improve firm sustainability reporting quality.

Supervisor(s): Dr Riccardo Natoli, Dr Chitra Lokuwaduge

Khalid ALHARBI

Thesis title: Corporate Social Responsibility Disclosure and Real Activities Earnings Management: The Interaction Impact of Corporate Governance and International Financial Reporting Standards in Saudi Arabia

Citation: The increased focus on corporate social responsibility disclosures has raised considerable concern about the purpose of such disclosures. Khalid's research examines CSR and real activities earnings management in Saudi Arabia by introducing new Saudi context variables, which provide insight into factors that influence these relationships. Khalid's research has various implications for policymakers, including improved regulations, company monitoring measures, and the importance of CSRD.

Supervisor(s): Professor Sardar M N Islam, Dr Chitra Loku Waduge, Dr Ashok Sharma

Abdulrahman ALOMAIR

Thesis title: Impact of International Financial Reporting Standards Adoption on the Value Relevance of Accounting Information in Saudi Arabia

Citation: This study investigates the effect of International Financial Reporting Standards adoption on accounting information value relevance in Saudi Arabia, revealing improved book values of equity after adoption. The research offers insights for non-financial firms, accounting standard setters, market authorities, and investors, while also presenting a refined methodology and guidance for enhancing accounting information value. A significant portion of the thesis was presented at the 2021 IASB forum and published in the A-ranked "Accounting and Finance" journal

Supervisor(s): Professor Alan Farley, Dr Hong Yang

Ashwag Hassan ALRUDAYNI

Thesis title: The Personal Characteristics of Audit Committee Financial Experts, Audit Quality and Financial Reporting Quality

Citation: Ashwag's research explores how financial experts on Australian audit committees influence audit and financial reporting quality. The findings offer valuable insights for regulators, underscore the importance of diverse expertise on corporate boards, and provide contribution to the ongoing discourse on earnings management and corporate governance.

Supervisor(s): Professor Colin Clark, Dr Chitra Lokuwaduge

May Abdulaziz ALRUDAYNI

Thesis title: A critical qualitative study of inclusive education in Saudi Arabia

Citation: The research critically investigated the Saudi Arabian inclusive education approach to students with disability. The study's findings highlight that while educational policy language in Saudi Arabia has changed to some extent within the global push for inclusive education, implementation in schools seems to fall well short of reforms. The findings contribute to a better understanding of inclusive education policy enactment

Supervisor(s): Dr Fiona Macdonald, Associate Professor Julie White

Ashik ALVI

Thesis title: Efficient Detection of Mild Cognitive Impairment and Alzheimer's Disease from Brain Signal Data

Citation: Ashik developed 6 Alzheimer's disease and mild cognitive impairment detection frameworks. He has managed to start a new collaboration with the IRCCS Centro Neurolesi "Bonino-Pulejo", Italy, and gathered a huge volume of medical data to perform this extensive research work. Ashik is also engaged with block teaching at FYC and CoABLEIT and industry projects like Footscray Smart City and Summer Tech LIVE.

Supervisor(s): Professor Hua Wang, Dr Siuly Siuly

Nathan BROADBENT

Thesis title: Assessing the design of junior Australian sport competitions from a skill context

Citation: Nathan's thesis investigated factors relating to design of junior sport competitions. In a series of experiments it was continually demonstrated that the equipment and playing area are oversized in popular junior Australian sport competitions, which negatively impacted player performance. This work has strong implications for sport administrators as they seek to maximise children's participation and sustained enjoyment of junior competition

Supervisor(s): Emeritus Professor Damian Farrow, Dr Timothy Buszard, Associate Professor Machard Reid

Naomi DEMPSEY

Thesis title: Impact of an Australian University's First Year Model and Block Mode Teaching on Student Academic Success, Satisfaction and Retention

Citation: Naomi completed three research studies developed within a mixed methods design to examine an educational reform in Australian higher education that focused on first-year student success and intensive block mode delivery. The influences of the reform were examined across multiple academic disciplines and student equity groups. This thesis has made a significant contribution to first-year undergraduate student success factors and intensive modes of learning and teaching. The findings reinforce that applying innovative reforms to first-year education can improve educational outcomes for large and diverse student populations in international contexts

Supervisor(s): Professor Anthony Watt, Professor Marcia Devlin

Homa HEMMATI

Thesis title: Implementation of morphology and genetics to more clearly elucidate classification of the genus *Psilocybe* in Australia

Citation: Homa utilized a combination morphological and molecular methods to clearly identify species of medicinal fungi in Australia. This study showed that species identification based on physical appearance alone is unreliable and that it is imperative to use a combination of molecular characterisation coupled with traditional identifications techniques to achieve optimal results. Clearly and reliably identifying these important species of fungi will aid researchers and drug developers to better species selection and strain identification.

Supervisor(s): Associate Professor Randall Robinson, Dr Joshua Johnson

Yao-Han LEE

Thesis title: *Zostera muelleri* as a bioindicator of heavy metal pollution in marine ecosystems

Citation: This thesis presents a novel method for detecting elevated levels of heavy metals in the marine environment. The method has been applied to heavy metal levels in Port Phillip Bay, Western Port Bay and Corner Inlet, over a five-year period. These Bays have been fully characterized and a major pollution event for the Winter of 2018 has been identified.

Supervisor(s): Professor John Orbell, Associate Professor Randall Robinson

Jia LI

Thesis title: Skeletal muscle mitochondrial and inflammatory signaling in response to a single session of high-intensity interval exercise in hypoxia.

Citation: Jia Li compared high intensity interval exercise effects in hypoxia and normoxia to determine the influence of hypoxia and exercise intensity on mitochondrial and inflammatory signaling responses. She has published two papers and presented findings at four conferences.

Supervisor(s): Dr Sean Yan, Dr Jujiao Kuang, Professor David Bishop

Rui LI

Thesis title: Real-time Biofeedback Mechanisms in Body Area Networks for Freestyle Swimming

Citation: Athletes improve their performance if coaching feedback can be delivered effectively and in a timely manner. This thesis investigates the use of a self-developed wearable technology to provide real-time feedback to a swimmer. New algorithms and feedback mechanisms were proposed. The technology was shown to be an effective training tool for performance improvement of recreational swimmers

Supervisor(s): Associate Professor Tze Huei (Daniel) Lai, Dr Wee Lee

Kerri LYONS

Thesis title: A toolkit for teacher recognition of underachieving gifted students: An intervention with Victorian teachers.

Citation: Gifted underachievement in education deserves more attention. This research explored Victorian primary teachers' awareness of characteristics of giftedness and underachieving giftedness prior to and following their introduction to

a researcher-compiled toolkit of resources which support potential identification. Findings from this small-scale study indicate that such a toolkit can be helpful, however teachers need professional learning and time to engage

Supervisor(s): Associate Professor Marg Malloch, Dr Debora Lipson, Professor Valerie Margrain

Tatijana MARKOSKA

Thesis title: Probing β -casein structure using Nuclear Magnetic Resonance (NMR) and Fourier Transform Infrared (FTIR) spectroscopy

Citation: Tatijana's work involved establishing properties of beta-casein, the protein which makes the difference between A1 and A2 milk, using sophisticated spectral approaches including FTIR and NMR. The work, conducted with great industrial support, produced substantial insights into behavior of this protein under various conditions relevant for milk processing and digestion. The results, publicised in peer reviewed articles, have already received substantial commercial and academic attention, emphasising the importance of Tatijana's work

Supervisor(s): Professor Todor Vasiljevic, Dr Thom Huppertz

Rebecca MARLAND

Thesis title: Dyslexia in Victorian Government Schools: Shaping Policy and Practice

Citation: Bec's PhD examined education rights and best practice for teaching students with dyslexia in Victorian Government schools. The findings of the research prompted the development of a new dyslexia response model, to inform future policy and practice. The thesis, and Bec's scholarly publications, made a significant contribution to disability perspectives of dyslexia in education. Bec lectures at Victoria University, Melbourne.

Supervisor(s): Dr Gwen Gilmore, Dr Jean Hopman, Professor Valerie Margrain

David MARSDEN

Thesis title: Knowledge, Skills and Practical Experience Required for Higher Education Outdoor Education Graduates

Citation: David explored what

knowledge, skills, and practical experience were required by higher education students who become outdoor educators. As a result the first ever Knowledge and Skills Framework has been developed to guide the higher education and outdoor education sectors on knowledge, skills and practical experience required by outdoor education graduates. A publication and industry presentations have actively showcased David's work

Supervisor(s): Professor Clare Hanlon, Dr Peter Burridge

Kristen McSWEENEY

Thesis title: Stock Selection for Thesis title: Identification and use of novel vasodilators in the prevention of cisplatin-induced acute kidney injury

Citation: Kristen demonstrated that the novel vasodilator BX-912 had mitigating properties against cisplatin induced acute kidney injury. Throughout her PhD Kristen published 3 first author publications and a book chapter and contributed as an author to multiple other publications. She is currently completing her post-doctoral fellowship at Vanderbilt University in Nashville Tennessee, studying the effects of bone marrow failure in the development of Leukemia.

Supervisor(s): Dr Anthony Zulli, Professor Vasso Apostolopoulos

Abdulaziz MURAYR

Thesis title: Impact of Corporate Board Structure and International Financial Reporting Standards on Voluntary Risk Disclosure and Firm Value: The Case of Saudi Arabian Listed Companies

Citation: The current research provides important insights into the extent of the VRD practices of listed companies in Saudi Arabia. Abdulaziz's research examines the influence of CG and IFRS on VRD practices and the impact of VRD on firms' value. The study advises the Saudi legislative institutions about the current status of VRD practices and their drivers within Saudi-listed companies

Supervisor(s): Professor Sardar Islam, Dr Chitra Lokuwaduge

Tina PHAM

Thesis title: Bring Your Own Device (BYOD) in Teaching the Vietnamese Language: an Autoethnographic Study

Citation: This autoethnographic study is based on the lived experience and deep reflection of a teacher engaging with the digital technology revolution in education. Tina, boat person and refugee, has explored through a series

of vignettes and stories the impact of technology on her teaching of the Vietnamese language and culture. This is a significant contribution to our understanding of modern education

Supervisor(s): Dr Peter Thomas, Dr Jayne Pitard

Bo QI

Thesis title: Impact of exercise training on skeletal muscle stress signalling pathways and purine metabolism in healthy and disease models and influence of ribose supplementation

Citation: BO investigated the influence of exercise stress and supplemental ribose on skeletal muscle stress signalling pathways and metabolism in health and chronic disease models. His work revealed for the first time that ribose can stimulate hypoxia stress signalling and beneficial adaptations at the muscle level. His work was presented at the 2022 Victorian Muscular Network conference and he is currently a postdoctoral at Victoria University.

Supervisor(s): Dr Christos Stathis, Associate Professor Emma Rybalka

Chitra RAGUNATHAN

Thesis title: Work integrated learning in higher education: Enhancing workplace readiness and graduate employability in Malaysia

Citation: Chitra's research investigates the potential for scaffolded, structured work-integrated learning programs to enhance the employability of undergraduate business degree students in Malaysia. Her presentation of research findings from this project has received awards at regional conferences in Southeast Asia. This thesis makes a significant contribution to ongoing efforts to improve higher education in Malaysia and beyond.

Supervisor(s): Dr Edward Lock, Professor Fiona Henderson

Kirsten SEALE

Thesis title: Quantifying the ageing methylome: a multi-tissue map in humans

Citation: Kirsten's research uncovered modifiable molecular markers associated with ageing in multiple tissues in humans. Using extensive human data and advanced bioinformatics, she revealed novel insights into the epigenetic control of ageing. The outcomes of this research contribute significantly to our understanding of the basic biological processes that change over the lifespan.

Supervisor(s): Professor Nir Eynon, Dr Sarah Voisin

Damien TAYLOR

Thesis title: To Examine the Strategic Organisational Practices in Sport to Encourage Women High-Performance Coaches in Australia

Citation: The dearth of women high-performance coaches in Australian sport is a concern. Damien's research identified what social, cultural, economic, and psychological factors intersect with work practices at national sport organisations to encourage women in these role. Twelve good organisational practices and 31 recommendations evolved and were placed into a nationally recognised Guide to assist sports attract and retain women as high-performance coaches.

Supervisor(s): Professor Clare Hanlon, Dr Andrew Dawson

Nicholas TRIPODI

Thesis title: The molecular and cellular effects of polarized photobiomodulation on human fibroblasts in vitro

Citation: This project investigated the effect of polarization of photobiomodulation on fibroblasts—a cell type crucial for wound healing. A number novel results were found—namely, that photobiomodulation has more widespread effects on the mitochondria than was previously thought, and that polarization magnifies this effect. These findings will contribute to the improved treatment of chronic wounds.

Supervisor(s): Professor Vasso Apostolopoulos, Dr Jack Feehan, Dr Sarah Fraser

P Mudiyansele Amila Madhusanka Kumara WICKRAMASINGHE

Thesis title: Mapping of Firebrand and Heat Flux on Structures in the Wildland-Urban Interface

Citation: Firebrands play a vital role in bushfire-related house loss. Using physics-based modelling and inverse-analysis technique, Amila examined firebrand generation rate and subsequently calibrated them across diverse fire-weather scenarios. Through physics-based modelling, the study quantified firebrand attacks on houses, correlating them with radiant heat. This research lays foundation to enhance building standards, mitigate risks, and strengthen structural resilience in bushfire-prone regions.

Supervisor(s): Professor Khalid Moinuddin, Dr Nazmul Khan

Thesis title: Developing methodologies to improve return-to-sport decision quality through a complex systems approach

Citation: Kate's thesis adopts a complex systems approach to improving return to sport outcomes for team sport athletes following injury. It use machine learning techniques to account for this complexity and develop tools to improve the decision making of practitioners working in the rehabilitation area.

Thesis title: The hydrologic feasibility of building a weir within Lake Eildon in the vicinity of Bonnie Doon

Citation: This research has assessed the hydrologic feasibility of constructing a weir within Lake Eildon near the township of Bonnie Doon. Models were constructed to assess the viability using historical data as well as with climate change factored in for the year 2065. The outcomes reached using historical as well as climate change models indicated that all weir options were viable.

Thesis title: Checkpoint and inflammatory markers in chronic colitis and colorectal cancer

Citation: A large number of genes in IBD mouse models of inflammation and severe inflammation were analysed and compared with controls. Several novel genes were identified. This study will lead to the identification of cancer markers in early stages of inflammation, finding novel targets for early diagnosis, drug, and vaccine development for IBD and colorectal cancer

Thesis title: Incorporating recording technology into practical project-based music units in a contemporary tertiary music degree

Citation: This project makes recommendations for effectively designing and implementing recording technology into a tertiary music degree based on the analysis of data collected from students in the Bachelor of Music cohort at Victoria University. The findings from this research project provide valuable insights into student identity and agency, resourcing, and the role of creativity and idiosyncrasy in music technology teaching and learning

Thesis title: Impact of managers' leadership style and mental health literacy on work-related stress as perceived by hotel support staff: A qualitative study

Citation: Puneet explored 'how do leadership style and mental health and wellbeing literacy among managers in hotels impact the perceived work-related stress. The study found transformative leadership style as supportive and recommended managers to upskill in mental health and wellbeing literacy.

The findings may be useful to hotel industry staff, managers and senior executives to develop a workplace culture that supports staff wellbeing.

Thesis title: Regulation of Emerging Allied Health Professions in Australia: A Case Study of the Dermal Clinician

Citation: This study addressed regulatory obstacles emerging allied health professionals face, specifically dermal clinicians in Australia. Ground constructivist theory assessed industry perspectives and frameworks applicable to unregulated allied health fields. The study included a literature review, analyses of current regulations, and a focus group discussion with Bachelor of Dermal Science graduates. Its recommendations work to bridge the regulatory gap in skin health, ensuring community safety.

Thesis title: The process of co-creating Thesis title: Tinkering with STEAM Teacher Creativity: A Thematic Literature Review of Maker-Based Professional Learning

Citation: This study delves into the intersection of maker-based approaches, professional learning, teacher creativity and STEAM pedagogies, with the aim of nurturing STEAM teacher creativity. Through a reflexive thematic literature review, the analysis revealed five themes and three key areas: STEAM teachers as designers and makers, STEAM teacher risk-taking, and STEAM teacher agency and self-efficacy.

Thesis title: Proteomic profiling of skeletal muscle mitochondrial adaptations to exercise through meta-analysis methods

Citation: Present in nearly all types of human cells, mitochondria are central to cellular metabolism. One of the key gaps in our current understanding is how different types of physiological stress alter mitochondrial proteins. This thesis provides the first-ever

meta-analysis of the hundreds of additional mitochondrial proteins that respond to exercise training, and is of broad scientific interest to those interested in health and human performance.

Thesis title: Development of Sustainable Pavements: An Experimental and Finite Element Analysis Study

Citation: Currently, the percentage of recycled materials in asphalt production is limited due to performance uncertainties. The development of asphalt mixtures made of 100% recycled aggregates was investigated. Providing experimental and numerical evidence, this study contributed to sustainability in the pavement industry by demonstrating the superior performance of innovative asphalt mixtures entirely made of recycled aggregates as alternatives to conventional mixtures.

Thesis title: Management of heart disease among Turkish immigrants: A qualitative exploration of facilitators and barriers to secondary prevention measures

Citation: This study investigated barriers and facilitators for cardiovascular secondary prevention interventions in Turkish communities with heart disease in Victoria. Thematic analysis revealed healthcare access issues and factors that increase heart disease risk and prevent cardiac events. Conducted during COVID-19, the research highlighted patients' healthcare experiences during the pandemic. Language concordance between patients and providers improved health literacy and trust

Thesis title: 50 years of research about teacher expectations: Systematic sedimentation

Citation: This thesis investigates 50 years of psychological research about teacher expectations, examining the impact of research discipline. It closely examined that body of literature and concluded that without contextual reference to educational theory and professional educational practice, the findings are highly problematic. This study makes a significant contribution methodologically, spanning traditional systematic literature review approaches with contemporary social science theorisation.

Thesis title: Biomechanical assessment of pitch length control and kinematic variability in cricket fast bowling

Citation: A precise knowledge of how cricket fast bowlers control movement variability for achieving pitch length accuracy is essential to continuing development of cricket coaching and performance. This thesis has made a significant contribution to understand the redundant kinematic mechanisms that determine bowling accuracy. Part of this thesis was published by the international society of biomechanics in sports

Thesis title: Study on Loan Risk Control by Markov Chain and the Variational Method

Citation: The thesis invested the problem of controlling loan risks. In particular, the student builds models predicting customs behavior by employing Markov chain and variational inference. It tackles machine learning challenges, including concept drift and data imbalance, offering interval estimations for transition matrix coefficients, enhancing prediction accuracy. Notably, a key outcome of the research has been accepted for publication in Springer's Lecture Notes in Computer Science for the year 2023.
