

## The 'must-have' mPOS device

# T650M

The Verifone T650m is an Android-based all-in-one mPOS solution perfect for tier-one merchants and SMBs. With a large, vibrant display - perfect indoors or outdoors - the T650m is the must-have mobile payment device. And, with Verifone's Global Payment Application paving the way to added features like device management, device diagnostics and Advanced Payment Methods, this mobile payment device is one powerful tool for new revenue streams and a positive ROI.

- Vibrant, backlit, five-inch color display with screen rotation
- Capacitive touch screen with multi-touch input
- Accessibility with Verifone's proprietary Navigator software feature
- Powerful and secure OS - Verifone's secure version based on Android 8.1
- PCI 6.x approved
- Utilizes the power of Verifone Cloud Services for further customization and to add revenue building streams.
- Great options like a slim protective case to keep your T650m clean and protected from environmental mishaps and a multi-unit gang charger help ensure your team is always ready for the next transaction.
