SUPPORTER OPPORTUNITIES

WILLS & ESTATES

# ABOUT THE CONFERENCE

## A CHANGING INDUSTRY

Our annual wills and estates conference draws succession lawyers from across the country. It is one of our most popular conferences and that is why we hold one in the Gold Coast in August, and repeat the conference in Melbourne in February.

Succession lawyers have the challenging task of grappling with client demands for certainty and control with difficult family dynamics and complicated asset structures.

The 6th annual wills and estates conference in Melbourne, will address this challenge, along with other key issues which have dominated the succession law landscape in the last twelve months, including family provision claims, assessing testamentary capacity and professional negligence issues.

It also includes the three compulsory subjects – professional skills, practice management and ethics.
