

Dear Families,

In light of developing news around the coronavirus and potential school closures, our school is providing all students with access to BrainPOP, a digital learning solution. We understand this is a stressful time for everyone and want to ensure as little disruption is caused to your children's learning as possible.

While your kids are home from school, use BrainPOP to continue exploring the topics they're covering in class, access high-interest texts and primary sources to extend knowledge, and play their favorite learning games.

To log in to your child's account, follow these easy steps:

1. Visit www.brainpop.com
2. Click **Log In** at the top right of the screen.
