

# 2022 Editorial plan

PERMANENT CONTENT	2022 TRENDS		MAIN TOPICS	SPONSORSHIP OPPORTUNITIES	2022 CALENDAR SPONSORSHIP OPPORTUNITIES
Cutting processes	<b>FEBRUARY MARCH</b>	Manufacturing of Electric Vehicles	Machining	High speed milling of lightweight auto parts in aluminum	<b>FEBRUARY</b> PRINT: Feb/Mar Issue Closing Date: January 31 DIGITAL: Conversatory Milling Machines EVENT: Special content Feb/Mar
			Fabrication	Heat treatments in Latin America. Are we competitive?	
Tools, Tool-holders and accessories	<b>APRIL MAY</b>	Digitalization and Industry 4.0	Automation	Clamping of pieces. How to amortize an automatic clamping system	<b>MARCH</b> DIGITAL: Smart Production March 23-24 Academic Program Virtual EVENTS:
			Tooling	5 Machines that you must have in a workshop for the future of automotive supply	
Forming and fabrication	<b>JUNE JULY</b>	Additive Manufacturing	Digital Twins	Successful applications for machine manufacturing	<b>APRIL</b> PRINT: Apr/May Issue Closing Date: March 14 DIGITAL: Conversatory Thermal Processes EVENTS: Special content Apr/Mar
			Lean Production	Predictive Maintenance	
CAD/CAM Software and CNC	<b>AUGUST SEPTEMBER</b>	Metal workshop as a service provider	Process Monitoring	Types of monitoring systems for workshops. Which to choose?	<b>MAY</b> DIGITAL: Whitepaper How to choose cutting tools for light weight alloys EVENTS: Sales Roundtable May 23-24 Virtual, Expomaq May 3-6, Fabtech (Mexico) May 3-5
			Workforce training	In the near future the machines will be able to work autonomously. How to adapt accordingly	
Thermal processes	<b>OCTOBER NOVEMBER</b>	Tool and die manufacturing	Materials for additive manufacturing (AM)	Choosing from a broader palette of materials for AM	<b>JUNE</b> PRINT: Jun/Jul Issue Closing Date: May 24 DIGITAL: Conversatory Cutting Tools EVENTS: Special content Jun/Jul
			Process chain in AM	How Latam is doing in supplying a complete process chain for AM	
Materials and surface finishing	<b>DECEMBER JANUARY 2023</b>	Sustainability	Automotive AM applications	Freight Vehicle Applications	<b>AUGUST</b> PRINT: Aug/Sep Issue Closing Date: July 15 DIGITAL: Special content Aug/Sep EVENTS: Webinar Energy consumption regulation (CO2 equivalents for manufacturing)
			Tool and die AM applications	Possible applications with AM	
Additive manufacturing and other advanced processes			New disruptive processes	Success stories of workshops that provide services and not only sell products	<b>SEPTEMBER</b> DIGITAL: Branded Content Innovations in process monitoring EVENTS: Webinar Wear reduction for hardened steel high speed cutting, Sales Roundtable September 28-29 Virtual, Feria Internacional de Bogota September 26-30, IMTS 2022 September 12-17
			Maintenance services for workshops	The key to becoming a successful service provider	
Metrology and quality control			Skill set for workshop managers	What skill set should a manufacturing shop manager have to become an influencer in his or her area	<b>OCTOBER</b> PRINT: Oct/Nov Issue Closing Date: September 26 DIGITAL: Special content Oct/Nov EVENTS:
			Success cases	What type of sensor is needed to monitor a specific tooling	
Sensorics and Industry 4.0 solutions			Single piece "standardization"	Chat with an expert in standardization of unique pieces	<b>NOVEMBER</b> DIGITAL: Whitepaper How to weld aluminium in the workshop EVENTS:
			Electrode manufacturing	Diamond milling of graphite electrodes	
			5-axis milling for the tool and die industry	Why it is necessary to have 5-axis machining today	<b>DECEMBER</b> PRINT: Dec/Jan Issue Closing Date: November 15 DIGITAL: Infographics Sustainable production. How to extract value from a more efficient production EVENTS:
			Wire EDM as a business enabler	The W-EDM allows you to expand your limits. How to take advantage of it	
			Corporate responsibility	The sustainability of a workshop goes beyond the ecological factor	<b>JANUARY 2023</b> DIGITAL:
			Data management	Use of digital tools to manage the life cycle of products	
			Energy efficiency	Measuring the energy consumed will be part of every process. Prepare yourself	
			Corporate governance	Equal opportunities and innovation to increase product use
