CREATE INSPIRATION

TRANSFORM YOUR FLOOR INTO A DECORATIVE OBJECT

“A FLOOR WITH A UNIQUE PERSONALITY”

Create a one-of-a-kind space, a true playing field for creativity where shapes and textures come together. XL and XXL tiles, regular and XL strips, diamonds and hexagons...
Our Shape Lab programme lets you create personalised spaces.

TILE (50/50),
XL TILE (61/61) and
XXL TILE (90/90)

Simplicity doesn't have to mean austerity! By alternating different sizes and positions, you can elevate the humble floor tile into a major part of your interior decor...

STRIP (16/64),
XL STRIP (16/96)

Traditional floor strips that can be laid in a strip parquet, herringbone or checkerboard pattern... or with a mixture of small and large sizes.

DIAMOND (45,6 x 79)

The diamond shape yields very striking graphic effects, allowing you to achieve a great deal of stylistic originality! If you lay them in a linear pattern, you can obtain an ethnic look reminiscent of Ikat motifs. Placed in a module of three, they taken on a 3D cube effect offering nuances and volume.

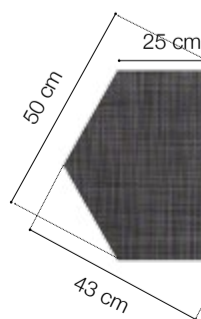

“HIGHLIGHT INTERIOR DECOR THAT EXPRESSES YOUR IDENTITY”

HEXAGON

A large-dimension hexagon revisiting the traditional floor tile in a modern and resolutely decorative version.

THE FLOOR: A REAL PLAYING FIELD !

Let your creativity soar free with Dickson® Shape Lab. Since each room presents a new challenge, we let you design and modulate a floor in ways that were never before possible. Free yourself from traditional designs by mixing and matching our strips, tiles, diamonds and hexagons in different sizes. Play with light, textures and reflections for boundless creativity !
