

Simplify Your Managed File Transfers With JSCAPE:

Any Deployment, Any Protocol, Any Platform

Break free of restrictive FTP servers. JSCAPE is built for the high-volume, fast-paced file transfer needs of your organization. Designed with flexibility and agility in mind, JSCAPE can handle the full range of your file transfer needs without the need to maintain multiple FTP servers.

What You Get With JSCAPE

Multiple Protocols in One Server

Our industry-leading server handles multiple protocols - AS2, FTP/S, SFTP, HTTP/S, OFTP2, Cloud and more.

Deploy Without Restrictions

Deploy in the cloud, on-premises or take a hybrid approach.

Platform Independence

JSCAPE is designed to work with Windows, Linux, Solaris and MacOS X.

Enterprise Managed File Transfer

JSCAPE provides flexible, scalable managed file transfers that meet all your organization's MFT needs with one solution. With JSCAPE, you can:

Easily Share Files Internally & Externally

Make sending and receiving files simple with our robust set of features, including Ad-Hoc file sharing, Drop Zones and Outlook integration.

Receive Files Using Multiple Protocols

Easily share files through any protocol — AS2, SFTP, FTP/S, HTTP/S, OFTP2 and cloud. Reduce the complexity of your FTP servers with our comprehensive protocol approach.

Meet Compliance Requirements

MFT Gateway's proxy servers support your compliance needs — including PCI, SOX and HIPAA. Easily exchange data with trading partners.

Automate File Transfers With Built-In Workflows

Accelerate your file transfers with our web-based workflow automation that centralizes all transfers for easier administration.

Easily Manage File Transfer Clients

Skip the time-intensive installation and start using JSCAPE immediately. Empower self-service across your organization for user registration, password reset and key management.

High-Availability You Can Rely On

MFT Gateway's proxy servers support your compliance needs – including PCI, SOX and HIPAA. Easily exchange data with trading partners.

A Secure & Compliant Solution

JSCAPE is committed to ensuring that our products comply with file transfer protocol and security standards.

Proactive Support

With JSCAPE, our expert team gives you end-to-end support for your managed file transfer issues. Get 24/7 SEV-1 support and 24/5 support for all other issues via phone, email or support portal.

Our Proactive Support program gives you comprehensive support resources, Health Checks and a Self-Healing Platform that delivers pre-emptive error detection.

JSCAPE Makes Managed File Transfer So Much Simpler. Ready To See How?
