

Hearing aid selection guide.

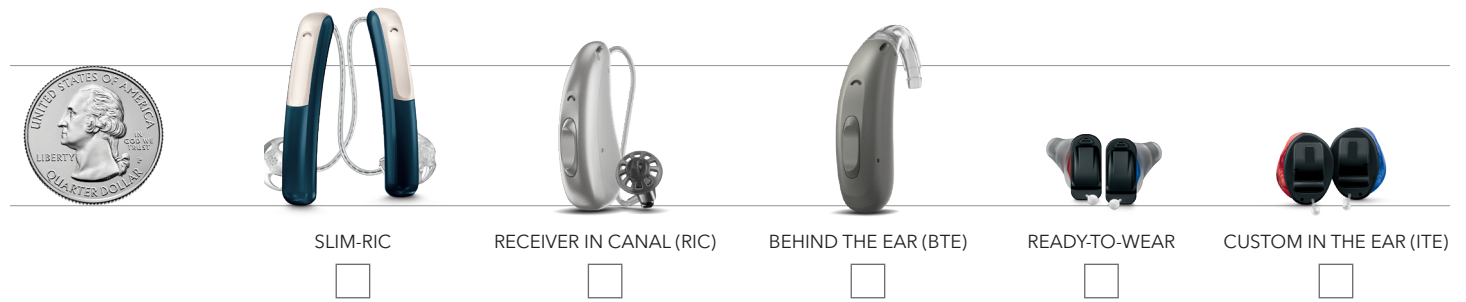

WHAT MATTERS MOST TO YOU?

Choose all that apply

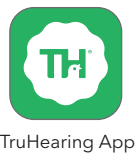

- Hearing in challenging environments** 
 Hear conversations more easily with greater focus on speech and less on the challenging soundscape around you.
- Connectivity** 
 Stream calls, TV, video, music, and more to both ears. Easy to use - works with TruHearing App.
- Tinnitus relief** 
 Therapy strategies provide a soothing, positive listening experience.
- Natural sounding own voice** 
 Hear your own voice as nature intended - avoid having your voice sound too loud or unnatural. Increase your acceptance and keep engaged in conversations.
- Rechargeability** 
 Perfect for those who want to avoid changing small hearing aid batteries, especially if you have dexterity issues.
- Personalized sound** 
 Hear sounds and speech from any direction - automatically adjusts to adapt to your unique listening situations and movements.
