

**TUR**

SPIRIT OF ADVENTURING

A wide-angle photograph of a desert landscape at sunset. Two motorcyclists are positioned in the center-left of the frame, facing away from the camera towards the horizon. The sun is a large, bright orb on the horizon, casting a long, warm glow across the scene. The sky is a gradient of orange and yellow. The ground is sandy and uneven, with some small shrubs scattered across the dunes. The overall mood is adventurous and serene.

## SPIRIT OF ADVENTOURING.

*T.ur* as in tour, *T.ur* as in adventure, *T.ur* for those who are, *in moto, sempre in moto*. *T.ur*, the new Tucano Urbano brand dedicated adventouring, is born.

## PASSION FOR THE TOUR.

*T.ur* has been conceived, wanted and created without compromises by **motorcyclists for motorcyclists.**

Every detail has been developed to savour every moment of the journey. To lift your gaze beyond the last horizon.

## THE INSPIRATION.

The spirit of the rallies that have become legend is blended with cutting edge technology.

## A MARK OF STYLE ON THE ROAD.

Vintage from a distance.

Modern and technical from close up.

The *T.ur* style makes a name for itself on the motorcycle scene with a unique design.

## THE QUALITY THAT MAKES THE DIFFERENCE.

**CORDURA®**  
Fabric

Concentration and attention to riding are fundamental for facing the most difficult environments in the world. For this, you need the utmost comfort that only **CORDURA®** can guarantee: original heavy-duty **Sanforized** fabric with high resistance to abrasion, **tough** tear resistance and water repellent, thanks to the external *Deep Water Repellent* treatment, joined to the inner membrane.

Special construction of the fibre for maximum resistance to abrasion

Waterproofing treatment

Excellent resistance to abrasion and tearing

## PROTECTION WITHOUT COMPROMISE.

Curiosity is the engine of discovery. But it is safety that makes the exploration bold. *T.ur* has adopted **the most advanced D3O® protectors ever: the new breathable D3O® LP2 PRO – Level 2** in a world preview which, thanks to the *Tri-ventilation Technology*, offer **45% more ventilation** compared to the traditional D3O®. You will also feel them to be comfortable and flexible like a second skin.

D3O®

Long lasting highly protective material.

CE - EN1621-1:2012 - Level 2 certification, in all environments (hot, cold, wet, moderate).

Ergonomic design for perfect integration with special pockets.

## MAXIMUM VENTILATION.

Riding, especially on long journeys, requires great concentration: an absolutely fundamental factor for keeping the attention to riding high and **maintaining body temperature as far as possible.**

*T.ur* has organised, in all the smallest details, the best measures for guaranteeing maximum ventilation.

## GUARANTEED WATERPROOFING.

*T.ur* has adopted **HYDROSCUD®**, the exclusive patented system of **Tucano Urbano**, to ensure **100% waterproofing and breathability.**

An exclusive construction which combines coated fabrics with taped seams and waterproof flaps.

Watertight construction.

Taped seams.

High-performance materials.

High breathability.

**To ride 100 percent CREASE-PROOF with any rain.**

# J-ONE

It was born for the challenge.  
It is number one in adventouring  
jackets. Faultless in the heat,  
the air and the rain.  
It doesn't fear the off-track  
that gets lost in the horizon.  
Grit thus becomes travel style.

**J-ONE** Modular 3-level protection system.

Main jacket
