

# Powering the next generation of teaching and learning

Equip your school with Chromebooks – versatile, easy-to-manage, and secure devices designed for education. Teach and learn from where you are, and prepare for where you'll go next.

## Versatile devices, built for education

Empower everyone in your school community with tools, apps, and features that meet their needs.

## Easy to manage and scale

Be in control of all of your school's devices – and support your IT team with the Chrome Education Upgrade.

## Designed to power educational experiences

Made to be fast, easy to use, reliable, and ready for learning, Chromebooks boost productivity both in and out of the classroom.

## Security built into every layer

Reduce risks with Chromebooks' multilayered security and integrated safeguards.

**No reported ransomware attacks on any business, education, or consumer Chrome OS device – ever<sup>1</sup>**

**#1 device in K–12 schools<sup>2</sup> with 50 million students and educators using Chromebooks worldwide**

## Meet the individual needs of every student, educator, and admin with Chromebooks.

### Products that power education

[Chromebooks](#) offer a diverse range of fast, secure, and simple devices that include models, features, and accessories to create just the right fit for every user

[Chrome OS](#) is the cloud-first operating system that powers every Chromebook, providing a speedy, simple, and reliable experience with regular background updates.

[Chrome Education Upgrade](#) puts IT admins in the driver's seat to improve educational environments, with enhanced management, security, and support capabilities within the Google Admin console.

### A comprehensive digital learning environment

Chromebooks pair seamlessly with [Google Workspace for Education](#), popular apps from the [Chromebooks App Hub](#) and extensions from [Chrome Web store](#) to create an all-in-one device ready for teaching and learning.

## Chromebooks help your school community thrive.

### Cost effective and timesaving

Chromebooks have less up-front costs, which means you can invest in more EdTech for your school community. And with a fleet that takes less time to deploy and manage, IT staff can focus their time on innovation.

### Versatile for everyone

Choose from a range of Chromebook options like desktop, laptop, or convertible tablet to accommodate students of different ages and learning abilities. There are also sleek, professional-grade devices for educators.

### Simple to manage and secure at scale

Stay ahead of cyberthreats with built-in security like 128-bit data encryption, verified boot, and automatic updates. The Chrome Education Upgrade lets you have centralized control of thousands of devices, set policies, and more – all from the Google Admin console.

### Durable, repairable, and made to last

Components like spill-proof keyboards and scratch-resistant Gorilla® Glass make your devices tough enough for everyday use. Chromebooks feature extended life spans<sup>3</sup> and they're built for repairability, so you can increase their life and reduce e-waste.

Worry less about the cost, management, and performance of your devices and spend more time on teaching and learning.
