

Cisco All Access

StormWind's Cisco courses deliver real-world tips and tricks that students can't get from standard Cisco training courses. We know that most networks incorporate the best gear from multiple vendors – so learning about Cisco technologies in a vacuum is just not good enough. Not only do our instructors cover the latest Cisco software and its interactions with other common devices, they make sure our students understand the “how and why”, how to avoid common pitfalls, and they'll cover the important workarounds.

Networks are evolving into a complex array of devices and systems. The StormWind Cisco All Access bundle has been designed to provide industry leading, comprehensive training for the team members responsible for keeping your best-of-breed network up and running.

Maximize your investment in Cisco technologies and in your team with a real world, expert-led All Access subscription to the world of Cisco technologies and certifications.

Maximize Your Budget – And Get Your Team Trained NOW

With a Cisco All Access subscription that costs less than THREE of our individual Cisco courses, and a LIVE class schedule that won't leave your network unattended, you can afford to turn your entire team into highly trained professionals and do it in less time.

	Most Training Providers	StormWind EPIC Live
Train MORE Travel LESS	What's the true cost of sending ONE person to ONE class that you travel to? \$4K? \$6K? Why be constrained by the delivery limitations of the typical training provider?	Don't waste your money on T&E. We bring the class to you. Let your people train more OR train more people. You decide. Either way, there's ZERO hit to your travel budget.
Increase UP-TIME	Multiply the weekly salary of each person you need to get trained by the number of courses they SHOULD attend - the indirect costs of attendance skyrocket. And how much time is your network at risk? Or do you push off training because you can't risk it?	You don't have to leave a skeleton crew monitoring your network while a select few “go to training”. With online delivery of short sessions and immediate access to On Demand recordings, training can be done anytime, anywhere – including ON THE JOB.
Implement & Ramp up NOW	At \$3500 per course, or more, how many courses can you afford to send each team member to in a given fiscal year? How long do you typically have to wait in order to “find the right time” to send them?	Get your team started TODAY for as little as \$900 per person!

Cisco All Access

What You Get

The Cisco All Access Bundle includes access to more than 25 Associate and Professional-level real-world certification courses covering core Cisco technology areas:

Enterprise

Cisco CCNP Enterprise: ENCOR
Cisco CCNP Enterprise: ENARSI
Cisco Wireless LAN Essentials

Routing & Switching

Cisco CCENT R&S: ICND1v3
Cisco CCNA R&S: ICND2v3
Cisco CCNP R&S: ROUTE
Cisco CCNP R&S: SWITCH
Cisco CCNP R&S: TSHOOT

Security

Cisco CCNP Security: SCOR
Cisco CCNP Security: SISE
Cisco CCNA Security: IINSv3
Cisco CCNP Security: SIMOS
Cisco CCNP Security: SENSS
Cisco CCNP Security: SISAS
Cisco CCNP Security: SITCS
Cisco CCNP Security: SITCS v1.5
Introduction to Cisco FirePOWER Services

Wireless

Cisco CCNA Wireless: WIFUND
Deploying Meraki Cloud Access Points

CCNA
