ADVANCED PAYROLL

ARE YOUR PEOPLE COSTS UNDER CONTROL?

Advanced Payroll is a fully integrated payroll application for Microsoft Dynamics 365 for Finance and Operations that allows organizations to manage their payroll across multiple positions, and in multiple legal entities and countries. Full localizations are available for the United States, Canada, and the United Kingdom.

Advanced Payroll handles the entire pay process from recording time and earnings to issuing checks and direct deposits. It features comprehensive calculations for earnings, benefits, deductions, and garnishments, while still being flexible enough to allow last-minute adjustments.
