ROOM SETUPS

Our goal is to create a fun and engaging event that fosters teamwork and participation. To achieve the best results, we have found certain room set up configurations to be more affective. In your event preparation meeting with Rene, he will give more guidance as to which set up will be best for your audience and objectives.

Here are some guidelines to follow with supporting images in the pages to follow.

Half Circle: 50 people or less

For workshop type events that are less than 50 people, we require the "Half Circle" set-up with no tables. Instructions for this set up can be found on the page entitled "Half Circle Setup Diagram".

NAMETAGS

"A person's name is to him or her the sweetest and most important sound in any language." – Dale Carnegie.

As stated in Dale Carnegie's quote, people's names are very important. We also know that using people's name speeds the trust building process which is why we take nametags very seriously. Below, you will see a template for the nametags we will use for this workshop. Please follow it exactly. The goal is to be able to read someone's name from 10 feet away. This not only helps the facilitator but it also helps those in attendance that may not be familiar with people's names.

***Please note:** Name tags should be hung around the neck (see double string lanyard below for example). Please do not stick onto clothing. Must be visible at all times to the presenter.*
