Subject: FW: Embargo Plan for Hurricane Florence

FREIGHT EMBARGO

As you know by now, Hurricane Florence is headed for the coast of North and South Carolina. Hurricane Florence is a major and dangerous storm. We anticipate damaging winds along the coastal areas served by Charleston, Florence, Wilmington and potentially Kinston. It is also likely that we will experience major flooding in these areas and much of South Carolina and eastern North Carolina. At this time, we are implementing an embargo on shipments to all points served by Charleston and Wilmington.

Thank you

Key Messages for Hurricane Florence

Advisory 52: 5:00 AM EDT Wed Sep 12, 2018

1. A life-threatening storm surge is now highly likely along portions of the coastlines of South Carolina and North Carolina, and a Storm Surge Warning is in effect for a portion of this area. All interests from South Carolina into the mid-Atlantic region should complete preparations and follow any advice given by local officials.

2. Life-threatening, catastrophic flash flooding and significant river flooding is likely over portions of the Carolinas and Mid-Atlantic states from late this week into early next week, as Florence is expected to slow down as it approaches the coast and moves inland.

3. Damaging hurricane-force winds are likely along portions of the coasts of South Carolina and North Carolina, and a Hurricane Warning is in effect. Strong winds could also spread inland into portions of the Carolinas.

4. Large swells affecting Bermuda and portions of the U.S. East Coast will continue this week, resulting in life-threatening surf and rip currents.
