Serbia - Coronavirus

All international commercial flights, both arrivals and departures from Belgrade Airport, remain temporarily suspended.

Airport is open for Cargo transport and humanitarian flights.

The Serbian parliament on 6 May 2020 lifted the state of emergency that was declared on 15 March over the coronavirus epidemic.

Lifting the state of emergency does not mean going back to the daily routine that had existed before 15 March as certain restrictions that were introduced to curb the spread of the coronavirus will remain in force.

UPS Export and Import service able as usual, only shipments containing medical supplies are forbidden for export.
