Issued: 05/27/2020

Last Updated: 05/27/2020 8:03 AM GMT

Msg. No.: 11535 Type: Operational Change

#### **European Union-Personal Protective Equipment**

European Committee for Standardization (CEN) and the European Committee for Electrotechnical Standardization (CENELEC), in collaboration with all their members, have agreed to immediately make available a number of European standards for certain medical devices and personal protective equipment. This action will help both EU and third-country companies willing to manufacture these items to swiftly start production and place products on the internal market more easily while ensuring a high degree of safety.

Providing free access to the national adoptions of these European standards helps both EU and third-country companies which are reconverting their production lines to manufacture quickly these critical items for preventing the coronavirus pandemic. This initiative complements the Commission Recommendation on the conformity assessment and market surveillance procedures, which provides guidance to national bodies on allowing non CE-marked personal protection equipment that comply with the necessary health and safety standards to enter the EU market within the context of the Coronavirus.

The standards are available for free download from the websites of CEN national members.

HS Classification reference / guidance from WCO for COVID-19 medical supplies can be found at:

## Cyprus :

Issued: 05/27/2020

Last Updated: 05/27/2020 5:58 AM GMT

Msg. No.: 11534 Type: Service Interruption

### **Cyprus-Coronavirus**

Things are slowly getting back to normal in Cyprus. Most businesses are now open, however employees with small children are still on benefits and at home until early June.

**Only cargo flights are currently running, commercial flights will resume June 20th.**
