Subject: UPS intl. update 6/5/2020

Good morning, another week in the books! The capacity out of ISMEA seems to be improving overall. The global updates are trending away from COVID and more towards “normal” incidents such as weather related topics. Below you will find the updates and you will find the capacity. I also have the explanation for some of the abbreviations I have been sending.

Contingent on the state of the world and our capacity, when I get back from vacation, I may cease sending this email as I don't want to send irrelevant information. Have a great weekend and next week.

GWT = General Weight

EPP = Export prepaid

EFC = Export Freight collect

China Updates:
