

FOR IMMEDIATE RELEASE**HENRY SCHEIN ONE EXPANDS DENTRIX VOICE'S SPEECH-TO-TEXT CAPABILITIES****New Version of Dentrix Voice Helps Entire Dental Team Use Advanced AI Speech-to-Text with Dentrix System**

AMERICAN FORK, Utah., July 8, 2022 – Henry Schein One today announced enhancements to Dentrix® Voice, powered by Bola AI, which will now allow dental team members to dictate clinical notes and other essential correspondence and documentation, in addition to periodontal (perio) exams. Formerly known as Dentrix® Voice Perio, Dentrix Voice lets dental teams use advanced speech-to-text technology to help save valuable time by simplifying data entry.

With Dentrix Voice, every member of the dental team can help streamline the practice workflow by using speech to enter perio exam numbers, clinical notes, billing notes, and other documentation. This can help improve practice efficiency, save time, and eliminate the frustration of typing notes manually.

As dental practices continue to implement safety regulations to reduce the risk of spreading COVID-19 and other airborne pathogens, using Dentrix Voice's hands-free technology can also help reduce the risk of infection for dental team members and patients.

“Henry Schein One is committed to delivering software that automates the practice workflow, ultimately resulting in better patient outcomes and increased practice efficiency,” said Mike Baird, Chief Executive Officer, Henry Schein One. “Our new enhancements to Dentrix Voice bring a new level of automation for the entire dental team, so they can simplify tedious tasks and focus on patient care.”

Using artificial intelligence, Dentrix Voice adapts to the speaker and environment regardless of who's speaking, their particular phrasing, or which microphone is used — all at conversational volume to preserve patient privacy. The Dentrix Voice commands are intuitive, and the user-centric design features preferred workflow for maximum efficiency. Online self-training videos and remote mentoring are available to assist dental staff members.
