# Step 2

Login with your e-mail and password on the live day.

Click the menu button on the top left corner to navigate through the platform. Here you can visit different pavilions, view the Info Stand for important information and view all the available jobs on the fair.

Clicking on a pavilion will bring you to the booths. Here you can click on a booth, view the company profile, view job opportunities, connect to their social media, download pdf's and other attachments, message the recruiter directly and having a videochat is also possible.

## Step 3

When you login you will notice our integrated chat feature. By clicking on the exhibitors tab you will be able to see and connect directly with recruiters.

You can connect with recruiters in a one on one private chat or in a shared public chat.

If the recruiter wants to start a video chat you will receive a notification to accept that call.
