

Company Meetings with students XXV Comillas Employment Forum – 2023 / 2024

The participation of a company or institution in the 25th Comillas Employment Forum allows exhibitors to actively participate, if they so wish, in a space that, either in person or virtually, serves as a place for more direct contact with students and alumni who are potential candidates.

The Meetings with Companies are spaces where exhibitors will be able to maintain more direct contact with candidates. These are work meetings in which the company can inform candidates about the vacancies they have open in real time, how the selection process will be carried out so that they can be filled or about the skills required for these vacancies. If companies wish, they can also use the classroom to carry out selection tests.

The participating company can optionally select a single meeting in two modalities: face-to-face or virtual.

The university provides exhibitors with a calendar of meetings for this activity. The scheduled spaces will be allocated to exhibitors on a first-come, first-served basis until they are fully allocated.

In the event that any of the exhibitors wish to hold an Encounters with Companies and at the time of registration there is no more space available, between 13 and 24 November the university will hold working sessions in the form of a round table between several companies to which the students will be invited to participate and in which the participating companies will also be able to collect the CVs of the attendees.

Select on the calendar the desired day and time. Once you select it, your choice will be blocked.

CLICK [HERE](#) TO ACCESS THE CALENDAR.

The reservation of this session will only be effective once the participation form has been sent and accepted by the organization.
