

Move Better, Swing Better.

UNLOCK YOUR PLAYER'S PRO SWING

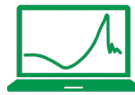

K-COACH delivers results. Next generation biomechanical measurement and feedback help train your hitter's body for optimal performance. For the first time in baseball technology, the focus is on what improves the swing – your hitter's body mechanics. Join the revolution today and train with K-COACH.

HOW K-COACH WORKS

HIT

The player hits pitches, K-COACH auto-captures the swings.

ANALYZE

3D measurement reports enable the coach to understand the strengths and weaknesses of the player's hitting.

TRAIN

Patented biofeedback trains the player to hit better. Customizable and pro range programs.

QUICK FACTS:

- Reliable: Proven in golf for over 10 years
- Flexible: Used by broad audience ranging from juniors to the pros
- Credible: Designed for leading hitting experts and MLB coaches

DISCOVER THE PRO SWING

Using 3D measurement and thousands of data points from professional hitters, we help you measure and understand your player in the context of a next level player.

BUILD THE PRO SWING

Armed with the same data used by pro hitters, our program building software helps you develop the precise program your player needs to swing like a pro.

TRAIN THE PRO SWING

Biofeedback training then ensures every repetition of your coaching program is executed with perfect form, creating the power and efficiency to hit better.
